ALIEN REGISTRATION FINGERPRINT CHART

UNITED STATES DEPARTMENT OF JUSTICE

IMMIGRATION AND NATURALIZATION SERVICE

OFFICIAL STAMP

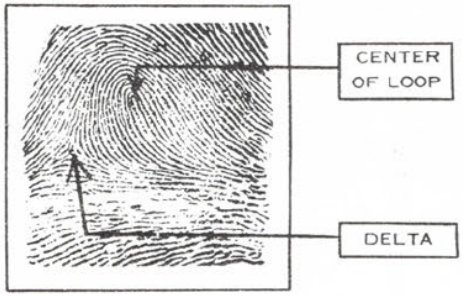
INSTRUCTIONS

To obtain classifiable fingerprints:

1. Use printer's ink.
2. Distribute ink evenly on inking slab.
3. Wash and dry fingers thoroughly.
4. Roll fingers from nail to nail, and avoid allowing fingers to slip.
5. Be sure impressions are recorded in correct order.
6. If an amputation or deformity makes it impossible to print a finger, make a notation to that effect in the individual finger block.
7. If some physical condition makes it impossible to obtain perfect impressions, submit the best that can be obtained with a memo stapled to the card explaining the circumstances.
8. Examine the completed prints to see if they can be classified, bearing in mind the following:

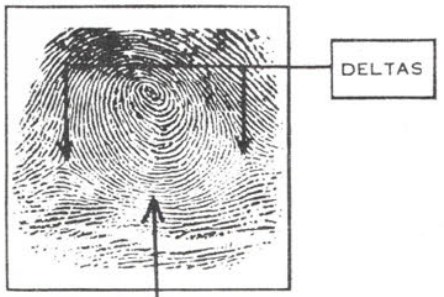
   Most fingerprints fall into the patterns shown below (other patterns occur infrequently and are not shown here):

1. LOOP



THE LINES BETWEEN CENTER OF LOOP AND DELTA MUST SHOW

2. WHORL



THESE LINES RUNNING BETWEEN DELTAS MUST BE CLEAR

3. ARCH

ARCHES HAVE NO DELTAS

   (a) A delta (Δ) is the point at which the lines forming the loop or whorl pattern spread and begin going in different directions. All loop prints have one delta. Whorl prints have two.
   (b) Loop prints cannot be classified unless the center of the loop and the delta, and the lines between them, are clear.
   (c) Whorl prints cannot be classified unless the two deltas and the lines connecting the deltas are clear.
   (d) Arch fingerprints can be classified if a sufficiently clear impression is obtained to permit identification of the pattern as being an arch.

9. If, upon examination, it appears that any of the impressions cannot be classified, new prints should be made. If not more than three impressions are unclassifiable, new prints of these fingers may be taken and pasted over the defective ones. If more than three are unclassifiable, make a new chart.

conditions attached to making
Men had to give up their lov
their decorative and useful tails, and offer their food to the fire-devil before eating it. They had to adapt.

We are still debating whether this was really what we wanted. It is true that practically everybody in an advanced country can have as much of material goods as is necessary to happiness, without excessive hours of labour, and with the opportunity for developing mental culture to fill leisure time. But the improvement has been in methods and things, not in purposes and ambitions.

It is impossible to turn back the clock. You cannot buy peace of mind or continued existence by imposing ignorance on yourself. No business man dare leave all innovation to his competitors: he may find it

Impressions to be so taken that the flexure of the last joint shall be immediately above the line marked " Fold ". If the impression of any digit be defective a second print may be taken in the vacant space above it.

When a finger is missing or so injured that the impression cannot be obtained, or is deformed and yields a bad print, the fact should be noted in the appropriate space provided.

The " rolled " and " plain " impressions are to be obtained first, then prisoner should sign his name, and lastly a rolled impression of the right fore finger is to be taken on the back of the form. If that finger is missing or injured, the impression of another finger should be taken and the form amended accordingly.
