SUBJECT: Conference of the Committee to Investigate Assassinations,
Report on Proceedings 23 November 1973

1. The Committee to Investigate Assassinations claims to have been established in 1969. The headquarters are in Washington, D. C. (at 1520 16th Street, N. W.). In the four years of its existence the Committee has done research and has become a kind of clearing house for the study of assassinations. It maintains contact with other groups engaged in similar activity, of which there seem to be at least two, one of which is located in the Boston area.

2. In addition to research, the Committee acts to help individuals interested in the investigation of assassinations. It thus files suits for private persons demanding access to classified information. It sponsors the publication of books and articles relating to the field of its interest, and sponsors the production of movies. It publishes a newsletter.

3. The conference of November 23-24, 1973, is the first of its type to be held by the Committee. The Georgetown University was helpful by placing Gaston Hall at the disposal of the Committee free of charge. By agreement with the University, the Committee will also be able to use the services of the University Library as a repository and research center.

4. The Conference opened on November 23, 1973, with a delay of about half an hour. The delay may have been due to the installation of recording equipment which literally covered the premises with a tangle of wires of every kind. The Washington Post reports an attendance exceeding 300. This is a generous estimate. After deducting official speakers, recording personnel, and press representatives, the audience probably numbered no more than 150, if that many.

5. Beards and long hair prevailed, and others stood out like a sore thumb. There was not a single Negro in the audience, nor, that morning, on the platform. Even the speaker who spoke on the case of Martin Luther King was white.

6. Not all the speakers preannounced were present. The chairman announced the absence of Richard Sprague. Another speaker, a lawyer from Los Angeles whose name was drowned out in the noise, was also absent. They were replaced by Dr. Robert Forman and someone whose name sounded like "Ed Kirkley".

7. The chairman announced that all the speeches would be tape recorded for subsequent publication. He further invited the audience to attend movies to be shown that night. One of these, "Burn", was to be shown at the University. Others by prearrangement would be shown at local movie theaters. The latter were connected with the Kennedy assassination. The case of the President's murder was in the center of the conference and, as noted by one of the organizers (Smith), one half of the speakers were to center their attention upon the Oswald case.

8. The chairman adhered strictly to the program and every speaker mentioned in the program for the morning session of November 23 spoke as specified. Of those who spoke, Norman Mailer, Robert P. Smith and Ronald Van Doren deserve particular attention. Their speeches in summary are reviewed below.

9. A table at the back of the audience presented recommended literature. The books included H. Weissberg's Whitewash and Peter Noyes' Legacy of Doubt. For some reason there was a copy of one paper only, that of George O'Toole's "Assassination Tapes". There was also a bibliography of political assassination; the foreword to which lists the persons most actively collaborating with the Committee.

10. A publication circulated during the conference was the November, 1973 issue of Computers and Automation which is to be renamed, starting January 1, 1974, Computers and People. The publication of articles such as "Nixon and the Mafia" which concludes that Richard M. Nixon seems to be the embodiment of a prediction that organized crime would someday put its own man in the White House, seems somewhat curious in a magazine devoted to the profession of data processing and the use of computers. The magazine was established in 1951 by Berkeley Enterprises in Massachusetts. Alger Hiss is among its contributors and an abundance of articles by Richard Sprague on the subject of Watergate published in the past year.

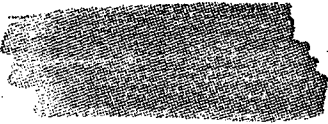

11. Another organization which received publicity at the Conference was The Committee for Action/Research on the Intelligence Community (CARIC).

12. A representative of Computers and Automation handed out this publication free of charge to members of the audience. He took notes with fantastic speed and apparent accuracy of everything said during the proceedings.

13. The lights gave out at one point and did not come on again during the morning session. The absence of current may have affected the tape recording.

14. The morning session, due to close at 12:30, ended after 1:30 p.m. By this time the audience was impatient to have lunch, and the resumption of the proceedings was therefore postponed to a later hour.

15. No document of any kind was issued to the persons who paid \$15.00 to enter. Instead their hand was stamped with the name of the organization which gave them access to all further meetings that day and the next (the members of the audience were apparently not supposed to wash their hands during this time). Names were taken down, but no questions asked other than one's initial. No information on address, occupation, etc. was required.

16. Speech by Norman Mailer. This was beyond a doubt, the most striking presentation during the Friday morning session. Mailer spoke briefly and left the conference shortly after the speech.

17. Mailer said that political intelligence as a subject was as powerful as "peace". Interest in assassination is obsessive. The obsession arises from the fact that a solution to the problem is not found, and attention is constantly drawn back to the unanswerable question.

18. He said that we have here the most powerful nation in the world which cannot come to grips with a question which seems as amazingly simple as the Kennedy assassination. The result has been that this nation has decided to shut down investigation and has thus alienated itself from its own history. This alienation has brought apathy, a trait noticeable in the reaction to investigations which bring no wide response.

19. A nation which rejects its own history is on the path to a totalitarian regime. Facts, meanwhile, have a peculiar ability to change when they are investigated, and investigators must therefore rely upon hypothesis. The history of the last ten years has been made unendurable by the abundance of hypotheses. They range from the opinion that an assassination is an accident lacking any particular sequence to the hypothesis that secret police forces are engaging in a world conspiracy.

20. The present conference must help us to learn whether there are possibilities, and what possibilities exist, to solve these questions.

21. Speech by Robert P. Smith. Mr. Smith was described as the director of research of the Committee, but he seems to be one of the major motive forces in this organization.

22. Mr. Smith pointed out that he had spent the last three years studying the Kennedy case. Much research had been done, but nothing had changed, so far as practical action was concerned, in the last nine years.

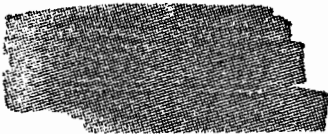

27. Speech by Ronald Van Doren. Mr. Van Doren seems to be a follower of Governor Wallace. He began by commenting on the sad situation in a country with a judiciary where individuals have to make conjectures regarding a case as obvious as that of Bremer. There is no doubt that Bremer pulled the trigger. But one should examine the political situation at the time of his action. Wallace was by far the leading candidate in the election campaign, a threat to other candidates, and he was winning the nomination. He represented a challenge to both parties. Nothing he said could be interpreted as racist, and in the economic sense he carried wide appeal. The question which faced the other candidates was how he could be stopped from disrupting the two parties and from preventing the re-election of the President. History will show how he was stopped and why this occurred.

28. The case in defense of Wallace's civil rights was quietly dropped. No proper investigation was conducted. As usual in assassination cases there was a diary. It showed that Bremer was acting alone and was deranged. Read as a piece of literature, the diary presents Bremer as a non-person, an illiterate unable to spell. There is nothing regarding the people he worked with. Meanwhile, if one examines Bremer's background, he appears an entirely different person. Why did he travel repeatedly to Ottawa? How did he manage to carry guns on planes? What was he doing in New York? Why was he in Washington? And where did he get his funds? The apartment he rented exceeds his annual income. His mother could not afford to visit him in prison, yet he dressed well. With whom was he involved?

29. All this should be looked into. Watergate brought the electoral campaign to the fore. Why has discussion of the Bremer shooting been excluded from the investigation? Bremer was a part of the 1972 campaign, yet there is no mention of Wallace or of Bremer. Two years from now Wallace will be back.

30. Speech by Ms. Meredith Rode. Ms. Rode was very brief. She said she became interested in the killing of George Lincoln Rockwell in 1970, and that the case was built on circumstantial evidence exclusively. The case is still open, for the police believe that there was an accomplice. No funds are available for defense.

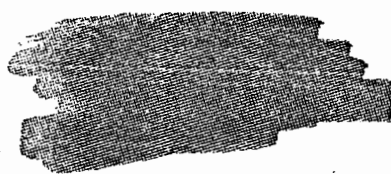

23. Although the National Archives are the repository for the Kennedy assassination documents, the FBI and the CIA are responsible for restricting research. Much of the 300 cubic feet of documents have been printed, a reclassification in 1971 has released 3,000 pages, and the CIA later released more, but none of the material released has created any sensation. The Freedom of Information Act is not as liberal on assassination material as on other matters. Some material was not even turned over to the Warren Commission. The FBI and the Justice Department are alone in knowing the results of some tests.

24. In the non-governmental area, much has been published, and the book by Peter Noyes must be singled out particularly.

25. Speech by Mr. Robert Hanson. Mr. Hanson has become the counsel for Sirhan Sirhan. He studied to become an engineer and then shifted to law. (To judge from the number of cases which he says he has lost, he should have remained an engineer instead of becoming an attorney.)

Mr. Hanson said that the Sirhan case is pretty hopeless. The trial was based on a 100 per cent belief in Sirhan's guilt. Therefore important witnesses were not called, and no attention was paid to ballistics. Scientific study, however, indicates that Sirhan Sirhan may not even have been the person who committed the crime. But even if it is proved that his gun did not kill Robert Kennedy, this discovery may have no influence upon Sirhan's case. California officials have no desire to reopen the case and funds to handle the proceedings are lacking. A book by Tiger on the case is worthy of note. Tiger claims that Sirhan Sirhan was acting under hypnotic influence.

26. Speech by James Lesar. Mr. Lesar, who spoke on the Martin Luther King assassination, declared that Ray was innocent, and that the FBI and the Justice Department were responsible for wrongly solving the crime. Ray was framed by conspirators. The persons presently involved in Watergate played a role in the Ray case investigation. No private agency - only a government agency - can solve the Ray case. All depends on whether the judiciary acts honestly or with political consideration in mind. As it stands today, we see Ray's rights having been abominably violated; we see lawyers who did not do their job; and we see nothing approaching an open hearing.

31. There was also a speech by Robert Salzman who was long-winded and technical. No useful coverage available.

32. Copies of materials which were available at the Conference are attached.

ANNOUNCEMENT

Senator John Stennis, Chairman of the Armed Services Committee, will begin hearings early in the New Year on his Bill No. S.2597 -- to amend the National Security Act -- in regard to clarification of the authority of the CIA.

The bill recently introduced by Senator Stennis resulted in part from correspondence with Senator Edmund Muskie, Chairman of the Senate Disarmament Subcommittee. To some degree, these hearings were inspired by the Watergate developments.

People with knowledge in the areas which might be fruitful for investigation should be in touch with Senator Stennis' Committee. For further information, contact the Task Force For A Nuclear Test Ban, Betty Lall and Jo Pomerance, Co-Chairmen, care of the Project on Budget Priorities, 1620 Eye Street, N.W., Washington, D.C. 20006.

JOIN THE COUNTER-SPY

INTELLIGENCE

• PUBLICATIONS

CARIC publishes a bi-weekly *INTELLIGENCE REPORT* and a quarterly named *COUNTER-SPY* featuring various articles examining the structures and operations of U.S. Intelligence. In addition, CARIC publishes occasional pamphlets on various concepts in the craft of intelligence. CARIC also provides reprints of selected articles on intelligence which have appeared in other publications.

CARIC is preparing a guide to U.S. Intelligence which will serve as a citizen access device to the hidden world of government operations. We hope that any controversy raised by this guide or any other CARIC publication will lead to public debate and resolution of the issues involved. Our analysis is based in a firm belief that no human being should be denied life, liberty or the pursuit of happiness by our government or its agents. CARIC publications aid the public effort to insure the veneration of this concept by those in our government.

• IN-FROM-THE-COLD HEARINGS

CARIC will sponsor In-From-The-Cold Hearings featuring public testimony by individuals intimately involved with U.S. Intelligence. The hearings will focus on American intervention abroad, domestic repression in this country and the effects of secrecy on the individuals' personality. Former intelligence workers and those who have been victimized by the intelligence community will publicly relate their participation in activities of our government which can no longer be ignored by good citizens.

TEAM

Join with us in our effort to end "illegal, unconstitutional and gross acts" by our government. CARIC is entirely supported by donations from American citizens. Donate and become a sponsoring member of the Committee for Action/Research on the Intelligence Community. Sponsoring members receive our bi-weekly *INTELLIGENCE REPORT* and our quarterly *COUNTER-SPY* as well as additional information on government operations. CARIC actively seeks the advice and viewpoints of all sponsoring members in our activities. Write to CARIC, Box 647, Ben Franklin Station, Washington, D.C. 20044, or call (202) 785-8330.

With your support we can prevent the visions of George Orwell in 1984 from becoming an American reality.

The Committee for Action
Intelligence Community (C)

The headlines in American newspapers have for years told of Army surveillance of civilians, U.S. spy planes being shot down over other countries, attempted coups and intrigue initiated by the CIA and unrestrained FBI wiretapping. We all know that Big Brother is watching, but no one in our government has taken the time to explain *who* is being spied upon, and *why* we are being watched. Too often, we American citizens don't even know who Big Brother is.

In 1955, President Eisenhower accepted the report of the Hoover Commission on U.S. Intelligence. Among other recommendations, the Commission emphasized the need for two "watchdog" committees on intelligence within the executive and legislative branches of government. Although a Foreign Intelligence Advisory Board (FIAB) was established to serve the President, Congress by an overwhelming majority has refused to establish a committee within the legislative branch. Now, in the midst of the Watergate scandals, there is some movement within Congress to establish committees on the separate intelligence agencies. The result will be divided oversight with no assurance that Congress will be able to stop illegal and unjustified spying. With Congress abrogating its responsibilities, there is no agency of government, directly responsible to the public, monitoring the United States Intelligence Community.

Now former intelligence workers and concerned citizens have formed a national association to provide the vital information an aware public needs to know about government operations. The Committee for Action/Research on the Intelligence Community (CARIC) is an independent "watchdog" on the government spy apparatus. CARIC, sponsored entirely by donations from American citizens, serves as an alternative source of analysis and information on the practices, organization and objectives of U.S. Intelligence. What clandestine operations are being carried out in the name of America? Is the CIA planning to entangle us in another war similar to the Indochina War? What information is going into Federal, State, local and private data banks on innocent American citizens? Is the FBI becoming a "secret police force?" Whose phones are tapped in America? These are some of the questions CARIC is answering.

CARIC knows that all conscientious Americans are closely watching the events that have unfolded since the arrests made at the Watergate building. We share the hope of most Americans that the illegal espionage practices that have now been exposed will no longer be a part of American political life. However, the dismantling of one espionage apparatus level to one group of politicians does not insure that this abuse will not be repeated by future politicians.

Who knows what future political espionage will occur under the guise of so-called "national security" or loyalty to an administration? Only time will tell, but through diligence and your help CARIC will anticipate and bring to your attention situations within the government that are likely to produce a new "Watergate."

Although CARIC does believe that a massive government spy apparatus is at work in the world, we hope to dispel some of the paranoia citizens naturally feel when there is talk of spies and wiretaps. We know that the FBI does not have agents behind every tree, but there are agents in every major community in this country who have spied on innocent private and public citizens. Only a full and undisguised look into this hidden world can displace unwarranted fears, and guide the public effort to end this illegal and unjustified espionage. *The secrecy with which the government surrounds itself must end.*

CARIC knows that tens of thousands of American citizens from all walks of life were mobilized over the past decade to help bring an end to the government's war in Indochina — a war that has taken new forms under the direction of U.S. Intelligence agencies. CARIC hopes that these same concerned citizens will continue to oppose the policies of our government which bring this new form of *covert war* and the Watergate scandals. It is now time for thousands of Americans to mobilize to stop the spying as we stopped the dying. *Please join us in our effort.*

THE COMMITTEE FOR ACTION/RESEARCH ON THE INTELLIGENCE COMMUNITY (CARIC)

INTELLIGENCE REPORT

• CARIC ORGANIZATION

CARIC is organized to reflect the operating procedures of a typical intelligence organization. Our research process involves collecting information from a wide variety of sources both public and private. Our analysis is the collective product of CARIC participants and eliminates any compartmentalization of knowledge. The information and our analysis is then disseminated through CARIC publications and separate works by CARIC participants. In addition, CARIC provides information to other journalists and qualified researchers.

• INTELLIGENCE DOCUMENTATION CENTER (IDC)

CARIC is continuously collecting information on intelligence variety of sources including official government publications, documents, previous investigations, public accounts and is conducted with hundreds of former intelligence and police age information forms the data-base of the Intelligence Documentation Center maintained by CARIC. The IDC is a library of information U.S. Intelligence available upon request to journalists, researchers and members of CARIC.

• SPEAKERS BUREAU AND WORKSHOPS

CARIC maintains a listing of members available to speak groups on a variety of subjects ranging from the foreign intelligence programs of our government to the problems of criminal justice in our country. Our speakers include former intelligence workers, agents and informers and others familiar with American intelligence.

CARIC will periodically conduct workshops for church, school or community organizations. Workshop topics include:

- OPERATION PHOENIX — CIA assassination in Vietnam
- SALEM HOUSE — Preparation for the coup in Cambodia
- The CIA in Laos
- OPERATION BOULDER — An introduction to the next American war
- Right-wing terrorism in America
- Federal Planning for civil disturbances: Riots and demonstrations
- The Internal Security apparatus and Watergate

• MULTI-MEDIA BRIEFING

CARIC will soon augment our workshops with a multi-media briefing on U.S. intelligence featuring films, video tapes, and recorded interviews. The exhibit will dramatically illustrate intelligence as practiced by our government. Our hope is to create a public realization by our audience of the concepts presented in the exhibit.

The first element of the multi-media briefing is a slide show demonstrating the growth of the internal security apparatus of our government and demonstrating how this apparatus influenced the Watergate scandal. The slide show terminates with suggestions for limiting the growth of the internal security apparatus.

SUBJECT: Conference of the Committee to Investigate Assassinations, Report on Proceedings 23 November 1973

1. The Committee to Investigate Assassinations claims to have been established in 1969. The headquarters are in Washington, D. C. (at 1520 16th Street, N. W.). In the four years of its existence the Committee has done research and has become a kind of clearing house for the study of assassinations. It maintains contact with other groups engaged in similar activity, of which there seem to be at least two, one of which is located in the Boston area.

2. In addition to research, the Committee acts to help individuals interested in the investigation of assassinations. It thus files suits for private persons demanding access to classified information. It sponsors the publication of books and articles relating to the field of its interest, and sponsors the production of movies. It publishes a newsletter.

3. The conference of November 23-24, 1973, is the first of its type to be held by the Committee. The Georgetown University was helpful by placing Gaston Hall at the disposal of the Committee free of charge. By agreement with the University, the Committee will also be able to use the services of the University Library as a repository and research center.

4. The Conference opened on November 23, 1973, with a delay of about half an hour. The delay may have been due to the installation of recording equipment which literally covered the premises with a tangle of wires of every kind. The Washington Post reports an attendance exceeding 300. This is a generous estimate. After deducting official speakers, recording personnel, and press representatives, the audience probably numbered no more than 150, if that many.

5. Beards and long hair prevailed, and others stood out like a sore thumb. There was not a single Negro in the audience, nor, that morning, on the platform. Even the speaker who spoke on the case of Martin Luther King was white.

6. Not all the speakers preannounced were present. The chairman announced the absence of Richard Sprague. Another speaker, a lawyer from Los Angeles whose name was drowned out in the noise, was also absent. They were replaced by Dr. Robert Forman and someone whose name sounded like "Ed Kirkley".

7. The chairman announced that all the speeches would be tape recorded for subsequent publication. He further invited the audience to attend movies to be shown that night. One of these, "Burn", was to be shown at the University. Others by prearrangement would be shown at local movie theaters. The latter were connected with the Kennedy assassination. The case of the President's murder was in the center of the conference and, as noted by one of the organizers (Smith), one half of the speakers were to center their attention upon the Oswald case.

8. The chairman adhered strictly to the program and every speaker mentioned in the program for the morning session of November 23 spoke as specified. Of those who spoke, Norman Mailer, Robert P. Smith and Ronald Van Doren deserve particular attention. Their speeches in summary are reviewed below.

9. A table at the back of the audience presented recommended literature. The books included H. Weissberg's Whitewash and Peter Noyes' Legacy of Doubt. For some reason there was a copy of one paper only, that of George O'Toole's "Assassination Tapes". There was also a bibliography of political assassination; the foreword to which lists the persons most actively collaborating with the Committee.

10. A publication circulated during the conference was the November, 1973 issue of Computers and Automation which is to be renamed, starting January 1, 1974, Computers and People. The publication of articles such as "Nixon and the Mafia" which concludes that Richard M. Nixon seems to be the embodiment of a prediction that organized crime would someday put its own man in the White House, seems somewhat curious in a magazine devoted to the profession of data processing and the use of computers. The magazine was established in 1951 by Berkeley Enterprises in Massachusetts. Alger Hiss is among its contributors and an abundance of articles by Richard Sprague on the subject of Watergate published in the past year.

11. Another organization which received publicity at the Conference was The Committee for Action/Research on the Intelligence Community (CARIC).

12. A representative of Computers and Automation handed out this publication free of charge to members of the audience. He took notes with fantastic speed and apparent accuracy of everything said during the proceedings.

13. The lights gave out at one point and did not come on again during the morning session. The absence of current may have affected the tape recording.

14. The morning session, due to close at 12:30, ended after 1:30 p. m. By this time the audience was impatient to have lunch, and the resumption of the proceedings was therefore postponed to a later hour.

15. No document of any kind was issued to the persons who paid \$15.00 to enter. Instead their hand was stamped with the name of the organization which gave them access to all further meetings that day and the next (the members of the audience were apparently not supposed to wash their hands during this time). Names were taken down, but no questions asked other than one's initial. No information on address, occupation, etc. was required.

16. Speech by Norman Mailer. This was beyond a doubt, the most striking presentation during the Friday morning session. Mailer spoke briefly and left the conference shortly after the speech.

17. Mailer said that political intelligence as a subject was as powerful as "peace". Interest in assassination is obsessive. The obsession arises from the fact that a solution to the problem is not found, and attention is constantly drawn back to the unanswerable question.

18. He said that we have here the most powerful nation in the world which cannot come to grips with a question which seems as amazingly simple as the Kennedy assassination. The result has been that this nation has decided to shut down investigation and has thus alienated itself from its own history. This alienation has brought apathy, a trait noticeable in the reaction to investigations which bring no wide response.

19. A nation which rejects its own history is on the path to a totalitarian regime. Facts, meanwhile, have a peculiar ability to change when they are investigated, and investigators must therefore rely upon hypothesis. The history of the last ten years has been made unendurable by the abundance of hypotheses. They range from the opinion that an assassination is an accident, lacking any particular sequence to the hypothesis that secret police forces are engaging in a world conspiracy.

20. The present conference must help us to learn whether there are possibilities, and what possibilities exist, to solve these questions.

21. Speech by Robert P. Smith. Mr. Smith was described as the director of research of the Committee, but he seems to be one of the major motive forces in this organization.

22. Mr. Smith pointed out that he had spent the last three years studying the Kennedy case. Much research had been done, but nothing had changed, so far as practical action was concerned, in the last nine years.

27. Speech by Ronald Van Doren. Mr. Van Doren seems to be a follower of Governor Wallace. He began by commenting on the sad situation in a country with a judiciary where individuals have to make conjectures regarding a case as obvious as that of Bremer. There is no doubt that Bremer pulled the trigger. But one should examine the political situation at the time of his action. Wallace was by far the leading candidate in the election campaign, a threat to other candidates, and he was winning the nomination. He represented a challenge to both parties. Nothing he said could be interpreted as racist, and in the economic sense he carried wide appeal. The question which faced the other candidates was how he could be stopped from disrupting the two parties and from preventing the re-election of the President. History will show how he was stopped and why this occurred.

28. The case in defense of Wallace's civil rights was quietly dropped. No proper investigation was conducted. As usual in assassination cases there was a diary. It showed that Bremer was acting alone and was deranged. Read as a piece of literature, the diary presents Bremer as a non-person, an illiterate unable to spell. There is nothing regarding the people he worked with. Meanwhile, if one examines Bremer's background, he appears an entirely different person. Why did he travel repeatedly to Ottawa? How did he manage to carry guns on planes? What was he doing in New York? Why was he in Washington? And where did he get his funds? The apartment he rented exceeds his annual income. His mother could not afford to visit him in prison, yet he dressed well. With whom was he involved?

29. All this should be looked into. Watergate brought the electoral campaign to the fore. Why has discussion of the Bremer shooting been excluded from the investigation? Bremer was a part of the 1972 campaign, yet there is no mention of Wallace or of Bremer. Two years from now Wallace will be back.

30. Speech by Ms. Meredith Rode. Ms. Rode was very brief. She said she became interested in the killing of George Lincoln Rockwell in 1970, and that the case was built on circumstantial evidence exclusively. The case is still open, for the police believe that there was an accomplice. No funds are available for defense.

23. Although the National Archives are the repository for the Kennedy assassination documents, the FBI and the CIA are responsible for restricting research. Much of the 300 cubic feet of documents have been printed, a reclassification in 1971 has released 3,000 pages, and the CIA later released more, but none of the material released has created any sensation. The Freedom of Information Act is not as liberal on assassination material as on other matters. Some material was not even turned over to the Warren Commission. The FBI and the Justice Department are alone in knowing the results of some tests.

24. In the non-governmental area, much has been published, and the book by Peter Noyes must be singled out particularly.

25. Speech by Mr. Robert Hanson. Mr. Hanson has become the counsel for Sirhan Sirhan. He studied to become an engineer and then shifted to law. (To judge from the number of cases which he says he has lost, he should have remained an engineer instead of becoming an attorney.)

Mr. Hanson said that the Sirhan case is pretty hopeless. The trial was based on a 100 per cent belief in Sirhan's guilt. Therefore important witnesses were not called, and no attention was paid to ballistics. Scientific study, however, indicates that Sirhan Sirhan may not even have been the person who committed the crime. But even if it is proved that his gun did not kill Robert Kennedy, this discovery may have no influence upon Sirhan's case. California officials have no desire to reopen the case and funds to handle the proceedings are lacking. A book by Tiger on the case is worthy of note. Tiger claims that Sirhan Sirhan was acting under hypnotic influence.

26. Speech by James Lesar. Mr. Lesar, who spoke on the Martin Luther King assassination, declared that Ray was innocent, and that the FBI and the Justice Department were responsible for wrongly solving the crime. Ray was framed by conspirators. The persons presently involved in Watergate played a role in the Ray case investigation. No private agency - only a government agency - can solve the Ray case. All depends on whether the judiciary acts honestly or with political consideration in mind. As it stands today, we see Ray's rights having been abominably violated; we see lawyers who did not do their job; and we see nothing approaching an open hearing.
