FROM : SA RICHARD L. BROCK

SUBJECT: JN 23-R (PROB) (Closed)

On 4/5/68, source stated he had no knowledge of the individual responsible for the assassination of KING. Source related that a request by a gun dealer in Memphis, Tenn., for 50 hand guns was made to a gun dealer in Morton, Miss., which was not met. Source stated most every gun dealer in the nation is selling out of their supply of hand guns due to the racial situation.

Source related tensions are high because of the current racial situation, however, source has no knowledge of any specific actions planned by any Klan groups.

Informant advised that he had seen the sketch of the person who supposedly was responsible for the assassination of MARTIN LUTHER KING in the local paper, but based on this and the knowledge he has of what actually took place, he could think of no one from the Hancock County area who might be responsible for killing KING.

Memorandum

TO : SAC, JACKSON (157-9586)

DATE: 4/12/68

FROM : SUPERVISOR JAMES O. INGRAM

SUBJECT: MURKIN

REGGIE SMITH, CBS Cameraman, telephonically contacted SA INGRAM from Atlanta, Ga. He stated Atlanta papers all carry huge headlines this date re ERIC STARVO GALT and fact white mustang registered to him found Atlanta. News media had furnished description and he believes that this information could be pertinent to the FBI. He has not furnished this information to Atlanta. On Saturday, 4/6/68, he and his staff were at Spellman College, Atlanta, Ga. filming persons viewing the body of Dr. MARTIN LUTHER KING. The first roll of film that he shot was of a group of about 10 people. There was one lone white male who viewed the body and he is described as a white male in early 30s, 5'10" - 5'11", weight 160-170, dark hair, light suit. SMITH states he matches the description of GALT. He and his soundman LEROY ROLLINS noticed this person smile, laugh to himself, and leave the area "with a smirk". He did not give this incident any further thought.

Upon obtaining information re GALT and his description, he feels the FBI should review his first can of film which is 16 millimeter sound film which is presently at CBS Headquarters in New York. He will be the only white male on the first roll of film and he feels he has a good photograph of him.

SMITH advised he desired that his name not be mentioned to CBS officials or to anyone that he has furnished this information.

It is noted this could be a pertinent lead since subject dropped car in Atlanta on 4/5/68.

Search of premises believed occupied by Unsub who assassinated Dr. MARTIN LUTHER KING on 4/4/68, disclosed suitcase in which was located tee-shirt and undershorts bearing laundry mark on red tape with black lettering believed to be thermo-seal type, manufactured by Textile Marking Machine Co., Inc., Syracuse, N. Y. The tape is $\frac{1}{4}$ " wide and $1 \frac{1}{16}$ " long and bears letters and numbers 02B-6.

Experts at Textile Marking Machine Company advise type on this machine is unusual in that the first two characters are 15 point type and the last three characters are 18 point type, with the middle character, the letter B, probably being narrow rather than regular type. The usual machine carries 15 point type for the first three characters and 18 point type for the last two characters

Textile Marking Machine experts also stated this machine is defective in that it is producing a tape $1 \frac{1}{16}$ " long instead of $1 \frac{1}{8}$ " long and is not projecting the tape far enough resulting in cutting off a portion of the first letter. The code used in the Northeast part of the U. S. is as follows:

The first letter O stands for lot number; the first number 2 indicates the day of the week, two being Tuesday; the second letter indicates the first letter of the store name, this is the letter B; the last number is the bundle number, this is 6. Color coding of the tag may designate various things such as a different month or the identity of a store in a chain. Experts also state the use of this system on laundry items is unusual in that the system is normally used on garments being dry cleaned

The Bureau has instructed that all textile machines using this type tape be located and machines using this code be identified.
