She explained further that in their system of marking they do not use a letter as a first part of any laundry mark. She explained that about two years ago, they used an "O" as the first digit in their laundry marks; however, this was used for just a few days and then they discontinued the use of this letter and started using numbers instead, as the first digit in the laundry mark. She advised that there would be no record available showing these few days when they first employed the use of the "O" as the first digit in the laundry marks.

YELLOW LAUNDRY MARK 2OR-3

On 4/12/68, J. C. WADLEY, Partner, Quality Laundry and Dry Cleaning, Auburn, Alabama, advised that a search of the records of that firm failed to reflect any laundry marking 2OR-3. As developed further from Mr. WADLEY, their company uses Thermo-Seal identification machines for marking laundry and the particular system that they use possibly would have a letter first in the identifying mark which would represent a route customer such as a dry cleaning establishment.

On 4/12/68, MARY HELEN BERRY, 407 Ryan Street, Auburn, Alabama, advised that she has been an employee of the Quality Laundry and Dry Cleaning Company, Auburn, Alabama, for 17 years. One of her jobs is to operate Thermo-Seal Identification Machine #2, which marks the laundry. She advised that the only time that the marking tape would be cut short would be when first feeding the tape into the machine. If this were to happen, she would tear this marking off the clothing and remark it after adjusting the machine in order that it would cut the proper length tape. She stated that normally red tape would not be used in Machine #2, and that this machine is normally used to mark just shirts. She uses "B" as the letter in the laundry mark which identifies her from her last name, BERRY.

Mrs. BERRY made 12 sample tape cuttings from Machine #2, which is identified as Model H604C1, Serial #34961. These sample cuttings are being maintained in the Mobile 1-A file.

One of her jobs is to operate Thermo-Seal Identification Machine #3 which marks the laundry. Most of the time she marks sheets and sometimes trousers. She does not use red tape in this machine.

She uses "M" as a letter in her laundry marks referring to her name, MARY. She said as long as the marking tape is fed into the machine properly, it will not cut the tapes short. If the tape is cut short, she would pull the tape off the clothing and recut the tape in order that it is the proper length and would include all of the laundry mark.

MO 157-2627

She stated that sometimes she operates these machines herself, however, normally ELSIE WELCH is the operator. She said that the laundry uses a system whereby each uses a different colored tape would be used. She said red tape is used for "specials," meaning that the laundry was to receive one day service. She advised that the cutting blade in one of the machines, identified as having Serial Number 34035 was replaced during the early part of the week. This machine had not been operated for better than four weeks, because the cutting blade was dull. She explained further that the machine was not cutting the tapes short, however was just failing to make a clean cut.

She said further that both machines are used to markeall types of laundry items.

Mrs. WILLIAMS made 12 sample tape cuttings from each machine. These cuttings are being retained in the 1-A file.

He stated further that during the week ending April 14, 1967, the letter "R" was used and the Number 20R-3 identified the customer as PERCY WILDER, no further information given.

MO 157-2627

He stated the color of the tape for this week was pink and not yellow.

On 4/13/68, JAMES T. NEIGHBORS, Manager, Alexander City Laundry, 225 Alabama, Alexander City, Ala., advised that a search of records of that firm reflected that laundry mark 20R-3 made on a gold tape, not yellow identified a customer as M. RE: VOLKSWAGEN BEARING 1968
ALABAMA LICENSE 3-17239
LEONARD SPEARS
BATON ROUGE, LOUISIANA - INFORMANT

LEONARD SPEARS, former East Baton Rouge Sheriff's Deputy, reported that at 8:45 p.m. April 19, 1968 he had seen a gray Volkswagen bearing Alabama license 3-17239 on Airline Highway, Baton Rouge, Louisiana, and the driver looked very much like the subject.

The following investigation was conducted at Montgomery, Alabama, by SA SPENCER H. ROBB:

On April 19, 1968, a check of Alabama Highway Patrol records reflected 1968 Alabama License 3-17239 issued to ROBERT D. PIKE, 310 Sterling Drive, Montgomery for a 1964 Volkswagen, 2 door sedan, VIN 6327390. Alabama Highway Patrol reported no stolen report on this license or car.

A check of the Montgomery City Directory reflected PIKE as Service Manager for JACK INGRAM Motor Company, Montgomery.

Efforts to contact PIKE unsuccessful until April 22, 1968, on which date PIKE, who does not resemble subject RAY, stated he had returned to Montgomery April 20, 1968 from a trip to Louisiana, and that he had spent the night of April 19, 1968 in New Orleans. He had driven his 1964 Volkswagen, bearing 1968 Alabama license 3-17239, and this car was not out of his possession at any time. The car still bears the above license.
