CONTACTS WITH NEWS MEDIA

Immediately following receipt of instructions to do so on April 17, 1967, all newspapers and television stations in Portland, Oregon, were furnished with copies of the two photographs of "ERIC STARVO GAULT" then in the possession of the Portland Office. Additional copies of these photographs were made and were mailed to newspapers and television stations outside the city of Portland on April 18, 1968.

On May 7, 1967, the proof and mat article concerning JAMES EARL RAY was mailed to all newspapers in Oregon.

On May 8, 1967, the two new photographs of JAMES EARL RAY, taken in 1967 in Mexico and in 1958 in California were mailed to all television stations and newspapers in Oregon.

It was noted by monitoring the television and press that the television stations and all daily newspapers in Oregon received the above photographs through their wire services and used them even in advance of receipt of the material furnished by the Portland Office. It was also noted that the television stations and daily press have been giving concentrated and daily coverage to the developments in this case, including both locally written articles and editorials and syndicated material.

There are eleven television stations, twenty-one daily newspapers, and 102 weekly newspapers in Oregon, all of which were fully furnished the material as above.

THERMO SEAL MARKING TAPES

Immediately upon receipt of instructions, April 9, 1968, that investigation should be conducted to determine whether laundry marks were made by a Thermo Seal Marking Machine, the following investigation was conducted by SA ELVIN L. BARTON:

It was determined from LARRY H. GIRVAN, Laundry and Dry Cleaning Department, Van Waters and Rogers, 3950 NW Yeon Boulevard, Portland, Oregon, that only sixteen laundry or dry cleaning establishments in Oregon use Thermo Seal Marking Machines. A list of these sixteen businesses was obtained from Mr. GIRVAN, and all sixteen were contacted telephonically. In each instance, the laundry marking involved was gone over with the company representative carefully and in all instances, the persons contacted advised that this is not their laundry mark. All stated that their Thermo Seal Marking Machines began with either one numeral or two numerals rather than a letter such as "D" or "O". None of them use "O" as a prefix.

By communication dated April 10, 1968, the Albany Office furnished a list of businesses in Oregon which allegedly use Thermo Seal Marking Machines. A check of the file disclosed that all of them had been contacted as above except the Eagle Cap Laundry and Cleaners, Enterprise, Oregon.

It was determined that the Eagle Cap Laundry and Dry Cleaners, Enterprise, Oregon, went out of business over a year ago. The former owner is GERALD GOODMAN who now works for the Umatilla Ordinance Depot, Umatilla, Oregon.

GERALD GOODMAN, Post Office Box 131, Hermiston, Oregon, informed SA RONALD E. SHERK that he went out of business, January 1, 1967, and no one has taken over the Thermo Seal Machine which GOODMAN formerly used. The machine actually has not been used since sometime in October, 1966.

GOODMAN stated that he never used a mark similar to the pertinent marks in this case in that he used only a lot number and date but never any letters.

Immediately upon receipt, April 19, 1968, of information that a pillow case and bed sheet found in the trunk of the 1966 white Mustang registered to ERIC STARVO GALT contained Thermo Seal laundry tapes, yellow in color, and contained the Code 20 R-3, all of the businesses in Oregon using Thermo Seal Machines were re-contacted and all advised that they had never used such a marking.

By communication dated April 26, 1968, the Seattle Office advised that a Thermo Seal Machine, formerly owned by Most Western Laundries, formerly Hoquiam Steam Laundry and Dry Cleaners, Hoquiam, Washington, had been sold in 1964 to Stacey's Cleaners, Portland, Oregon. Stacey's Cleaners had already been interviewed and was among the above described sixteen businesses previously contacted.

At 5:25 PM this date, Mrs. JOHN J. O'DONNELL, 603 N. 29th St., Corvallis, Oregon, Phone 752-2300, telephonically contacted this office and related the following:

This afternoon she had seen a man in a Corvallis grocery store, whom she thought to be JAMES EARL RAY. She said she noticed this man because he acted funny, and she said he didn't buy any groceries while he was in the store; he seemed to just be walking around the store. She described the man as Big, Tall, Heavy, with no further details. She said she and her husband obtained the license number of the man's Pickup when he left the store. He was driving a blue Chevrolet Pickup, OREGON LICENSE GAQ-017.

This information was related to SA SHERK, and to SA J. DONALD REED, with instructions to handle.

Portland Indices negative re above License. A check thru the Portland PD of MVR Records showed that this License is registered to a 1964 Chevrolet Pickup. The RO is JOHN A. JENNINGS, P.O. Box 531, Rt. 1, Willamina, Oregon. This info was also furnished to SA REED.

Memorandum

TO : ALL SPECIAL AGENTS

DATE: 5/28/68

FROM : SAC W. B. SOYARS, JR.

SUBJECT: MURKIN

JAMES EARL RAY ARMED AND DANGEROUS

Bureau instructed all Offices to check driver's license registrations for months of April. and May, 1968, for individuals within the general age bracket of JAMES EARL RAY on the theory that he has probably established a new identity and you will recall, obtained an Alabama driver's license in establishing the identity of "ERIC STARVO GALT."

This project was conducted at Salem, Oregon, by SA RONALD E. SHERK and Clerks LESTER T. AULTOM and DENNIS J. GARNER on May 22, 23, and 27, 1968. It was necessary to check approximately 25,000 new driver's license applications. Most of them were young individuals obtaining driver's licenses for the first time; however, 216 individuals were located who fit the general description of RAY.

INSTRUCTIONS:

Designated Agents promptly check out all persons listed in this memorandum as suspects. Refer to my memorandum to All Special Agents, 4/24/68, listing known whereabouts of RAY during various periods.

You may eliminate in any of the following ways:

- (1) If your suspect was in Oregon and using the name shown on the driver's license records prior to 4/4/68

- (2) Personal observation, using the two recent photographs of RAY which I am sending you by separate communication. Note particularly the deep chin dimple, the hump in the nose, and the fact RAY's left ear sticks out further than his right ear.
- (3) Definite elimination by a person or persons well acquainted with the individual, such as as a friend, neighbor, or employer.
- (4) If all else fails, check fingerprints against fingerprints on IO.

You may handle results by legible longhand notes on this memorandum, showing how eliminated. Route results to SA RONALD E. SHERK who will co-ordinate project. Do not make special travel to handle this project, but handle on first occasion you are in the vicinity of suspects' cities.
