WASHINGTON, D. C. 20535

To: FBI, Atlanta

Re: MURKIN

Date: April 23, 1968

FBI File No. 44-38861-1691

Lab. No. PC-A5744 IZ GH
PC-A5764 IZ BX
D-561140 JK

Specimens received 4/18/68 (PC-A5744 IZ GH)

Q229-Q232 Four coat hangers
 Q233-Q234 Two cardboard inserts for coat hangers
 Q235 Handkerchief
 Q236-Q237 Pair of socks

Specimens received 4/18/68 (PC-A5764 IZ BX; D-561140 JK)

ITEMS FROM ROOM 2, 113 14TH STREET, NORTHEAST, ATLANTA, GEORGIA

Q240 Large key blank
 Q241 Small key blank
 Q242 Piece of black thread
 Q243 Piece of brown thread with needle
 Q244 Metal strip, $\frac{1}{2}$ " by 2"
 Q245 Business card for "HANEY'S SHEET METAL"

Results of examination:

Specimen Q243 is an 11" piece of brown cotton sewing thread which is threaded through a needle. The Q243 thread is like the thread used to repair the previously submitted Q69 undershorts in all observable characteristics and could be from the same source.

Specimen Q242 is a piece of black cotton sewing thread which measures 3 $\frac{3}{8}$ " in length. Specimen Q242 could not be associated with any previously submitted item.

(continued on next page)

MAIL ROOM ☐ TELETYPE UNIT ☐

The Q240 and Q241 key blanks are flat steel blanks of the type used to make keys for lever tumbler locks such as are used on some cabinets and desks. Q240 is uncut. Q241 has two square notches cut in one side and the tip of the blank has been filed slightly. The presence of smoke residue in one of the notches and what appears to be heat discoloration on the blank suggests an attempt may have been made to fit this key to a lock by the "impression" method. The "impression" fitting method is used by locksmiths to make a key for a lock for which no key is available.

Q244 appears to be a gage for checking to determine whether the proper angle has been cut in a key blank or other object. One end of Q244 has been formed into a "V" shape having an angle of approximately 100 degrees which corresponds to the angle of cuts formed in key blanks by some key machine milling cutters. Q240, Q241 and Q244 are consistent with the type of materials furnished students taking correspondence locksmithing courses.

Although some differences were noted between the questioned writings on the Q245 business card and the writings received in this matter which have been attributed to Eric S. Galt, the limited nature of the questioned material and the lack of comparable writings precluded a definite opinion as to whether Galt prepared this questioned writing.

Specimens Q236 and Q237 constitute a pair of men's soiled stretch socks. The socks are white with a blue and red diamond design on each side. No labels or visible or invisible laundry marks were found on Q236 and Q237. Several brown limb hairs of Caucasian origin were found on Q236 and Q237. These hairs possess too few individual microscopic characteristics to be of value for association with a particular person.

No fibers were found on Q235, Q236 or Q237 that could be associated with the Q13 bedspread or other previously submitted cloth items.

The coat hanger designated as Q229 bears advertising for the "HAI PING Laundry & Cleaners 1162 Peachtree St, N.E., Atlanta 9, Ga." No markings were noted on the other coat hangers.

The cardboard coat hanger insert designated Q233 bears the following: "L. M. Leathers' Sons Paper Division P.O. Box 1198, Athens, Georgia" No markings were noted on the other insert.

Specimen Q235 is a man's white cotton handkerchief that has been used to apply shoe polish. No label or visible or invisible laundry marks were found on Q235. No hairs were found on Q235

The brown stain on the Q235 handkerchief is similar in color and composition to the brown polish of Q41 and could have come from a source such as represented by the brown "KIWI" polish of specimen Q41.

TO: DIRECTOR, FBI

FROM: LEGAT, PARIS (100-2082)(P)

SUBJECT: MURKIN

Remycab, 4/16/68.

Enclosed is a visa application of MICHEL EDOUARD GERST. This was filled out in his own handwriting and contains his photograph.

It is requested that it be returned as soon as possible to be returned to the Visa Section, American Embassy, Paris.

Visa files, American Embassy, Paris, were also checked with negative results regarding EDWARD GERST, ERIC STARVO GALT, JOHN WILLARD and HARVEY LOWMYER.

The French police are conducting investigation expeditiously to determine the whereabouts of MICHEL EDOUARD GERST on 4/4/68.

We are following closely and will advise.
