SUBJECT: MURKIN

At 9:10 a.m. this morning, Jerry O'Leary from the Washington Evening Star telephonically advised me that the Evening Star, in its issue of May 9, 1968, will carry a story on page 1 concerning James Earl Ray, the subject of the above-captioned case. The story will include a photograph of Ray. He advised that the story will reflect that the FBI has been maintaining tight secrecy in the case and that the only information released by the FBI has been limited to 3 press releases and the release of a number of photographs of Ray. The story will then continue by reciting additional information, over and above that in the press releases, which connects Ray to the murder of Dr. Martin Luther King. O'Leary advised that he has gathered this additional information from an assiduous study of newspaper and other news media accounts from all over the country.

As the Director is aware, we have furnished no information to O'Leary concerning this case other than that contained in our press releases.

SUBJECT: MURKIN

This is the case involving the murder of Martin Luther King, Jr.

In order to cover the possibility that subject may have died since the commission of the crime, the U. S. Census Bureau and Department of Health, Education and Welfare were contacted and they advised that no central records of unidentified deceased are maintained by those agencies. It was suggested that each state may maintain such a record in their Bureau of Vital Statistics or similar agency.

There is no known Federal law requiring the maintenance of such information; and the Identification Division advises that it believes that if any record of unidentified dead is maintained, it would only be at local police departments, morgues, or medical facilities.

Attached for approval is an airtel to all offices and Legats, Mexico City and Ottawa instructing them to ascertain whether such records are maintained by the individual states or nation wide in the case of Mexico and Canada. If so, appropriate checks should be made for the period from 4-5-68 to date, and if feasible, stops should be placed on unidentified dead with appropriate agencies.

If there is no central record repository maintained in the various states or nationally in the case of Mexico and Canada, the field is being instructed that in connection with its contacts with various law enforcement agencies on this case or other Bureau matters, to make appropriate inquiries relative to unidentified dead for the period

beginning 4-5-68; and if fingerprints on such dead are maintained, that they be compared with those on the identification order on Ray in order to effect identification or nonidentification. The field is being instructed that this should be handled in connection with the normal course of business and only reasonable investigation should be pursued along these lines.

Identification Division has already placed appropriate stop on any unidentified deceased inquiries they may receive.
