The General Investigative Division has forwarded to the Laboratory an anonymous hand printed letter which was addressed to the "DIRECTOR F. B. I. WASHINGTON, D. C. U. S. A." This letter was postmarked "MONTREAL 7 PM 21 IV P. Q." The letter states that James Earl Ray will be found at a place about 14 miles south of Millen, Georgia, along 121. A palm print also appears at the bottom of this letter.

The letter and envelope were searched through the Anonymous Letter File but could not be identified with any prior submissions to this file.

It was further determined that the hand printing appearing on this letter and envelope was not prepared by the individual responsible for the preparation of hand printing appearing on specimens in the "MURKIN" case attributed to Eric S. Galt. No identifying features were noted on these items which might indicate their immediate source.

The anonymous letter and envelope have been forwarded to the Latent Fingerprint Section for further examination.

Recommendation: None. For information.

Reference is made to Mr. DeLoach's memorandum dated April 24, 1968, regarding the return of certain evidence in this case.

Pursuant to this memorandum, the evidence has been packed and is ready for shipment.

There is attached an airtel to the Memphis Office advising them of the return of the evidence.

Included among these items are several items of original evidence which by their nature may be necessary to have available for future comparison purposes; for example, at such time as James E. Ray is located and if it is desired to have his head hairs compared with those at the scene, it would be necessary to have those found at the scene resubmitted for comparison. We are also continuing to receive laundry mark samples for comparison. Should any be received that cannot be eliminated by the use of photographs, it would be necessary to consider the return of the original items if further examinations are required.

ACTION: A proposed airtel advising the Memphis Office of the return of the evidence is attached for approval.

SUBJECT: MURKIN

Reference is made to the Director's notations, asking why the evidence in captioned case has not been returned to the Memphis Police.

This is my responsibility. I knew of the necessity to return this evidence as soon as logically possible; however, I also realized that the Director would not want the evidence returned only to have the Memphis Office obtain it once again and send it back for further comparison purposes with new evidence.

In compliance with the Director's instructions, the evidence was to be returned as soon as Laboratory examinations were completed. There has been a constant accumulation of evidence, making it imperative that the original items be retained briefly for comparison purposes. The true name of the subject was not known until Friday, 4/19/68.

There has been no request from the Memphis Police relative to the return of this evidence. To the contrary, the police feel that this is strictly an FBI case and have indicated this fact accordingly.

The evidence will be returned to the Memphis Police immediately. There will be no consultation with the Department.

SUBJECT: MURKIN

This is the case involving the murder of Martin Luther King, Jr.

With respect to the evidence in this case obtained from the Memphis Police Department, SAC Jensen of our Memphis Office has advised that on the evening of the shooting, 4/4/68, and the morning of 4/5/68, he contacted Frank Holloman, Director of Fire and Police, and inquiry was made of the evidence collected. Holloman advised that all of the material he knew of was at that time in custody of Homicide Division, Inspector N. E. Zachary. He was told that the SAC would take possession of the evidence collected and would prepare it for submission to the FBI Laboratory immediately. No discussion was had with Holloman as to whether or not the FBI Laboratory report would be furnished to him and no request was made by him on arrival at the Homicide Division where the pertinent material had been maintained in a small room off the Homicide Squad rooms under custody of Inspector Zachary. Much of the material had not been identified as two of the officers had secured the pertinent material and arrangements were immediately made with Inspector Zachary to secure the names of the officers who could identify the evidence. Officers properly identified evidence.

The major part of the evidence was submitted by Inspector Zachary who had personally brought it to the police department, however, other miscellaneous items had been secured by individual officers. SAC Jensen advised Inspector Zachary that he would take custody of the material and insure that it was submitted to the FBI Laboratory immediately for appropriate and necessary examination. Inspector Zachary was advised that if he desired a police officer to accompany the Agent this could be arranged, and Inspector Zachary stated he did not feel it was necessary.

Memorandum to Mr. DeLoach
RE: MURKIN

Inspector Zachary and the Memphis Police Department have been most cooperative. They turned the original material over to us which they found abandoned at the scene of the crime. They could have retained this if they desired to; however, they did not. They turned it over to the FBI Office in Memphis. The Prosecutor has filed murder charges against Galt, which are presently outstanding.

ACTION TO BE TAKEN:

It is recommended the SAC at Memphis advise the Prosecutor of information which is contained in our press release. In the event he asks for a report in order to present the matter to a grand jury, he should be advised the FBI is presently conducting an all-out investigation in the matter and at the appropriate time will cooperate fully.

SUBJECT: MURKIN

This is the case involving the murder of Martin Luther King, Jr., on 4/4/68.

SAC Robert Jensen of the Memphis Office has advised that he was contacted by Inspector N. E. Zachary of the Memphis Police Department. Memphis authorities have obtained a warrant for the arrest of Galt on a murder charge but are desirous of meeting with the FBI so that the matter can be presented to a local grand jury. Inspector Zachary advised that the Attorney General of the Memphis District, Phil Canale, is desirous of presenting the matter to a grand jury as soon as possible. Inspector Zachary has advised that perhaps Canale would be calling the Attorney General concerning this matter.

It is noted that the Memphis Police Department is aware of the items which were abandoned near the scene of the shooting in Memphis, Tennessee, on April 4, 1968. These articles had first been turned over to the Memphis Police and were made available to the FBI by Inspector Zachary. It has been publicly stated in the press that the FBI has traced the rifle to a gun shop in Birmingham, Alabama, and also that the telescopic sight which was mounted on the rifle had been purchased from the same dealer. The Memphis police are, of course, aware that the binoculars abandoned at the scene were purchased in Memphis, Tennessee.

It has also been publicly stated that Galt is the owner of a 1966 white Mustang which had been abandoned in Atlanta and was located on 4/11/68.

Memorandum to Mr. DeLoach:
RE: MURKIN

The Memphis Police Department has not asked for the return of the evidence in this case. SAC Jensen, shortly after Mr. DeLoach's trip to Memphis on April 5, 1968, expressed to DeLoach the fact that the Police Department might soon begin wondering whether they would receive a report. DeLoach later mentioned this thought on Jensen's part in conversation with the Director. Both SAC Jensen and Inspector Joe Sullivan have indicated that there has been no request whatsoever on the part of the Memphis Police Department for this evidence to be returned.

#2

Inspector Zachary, Memphis Police Department, has expressed the opinion that ultimately the case would have to be tried as a murder case in local courts. The First Assistant State Attorney General, Robert Dwyer, has indicated an interest in the evidence but has not made any request for its return.

The evidence has been maintained in the FBI Laboratory in view of the exhaustive and intensive investigation being conducted by the FBI and principally because evidence continues to be accumulated as we develop additional information on the background, prior movements and activities of the subject. Retention of the evidence has been particularly important from the standpoint that many of the items contained latent fingerprint impressions. It was, of course, necessary that these impressions be compared with previously obtained material.

OBSERVATIONS:

The individual known as Eric Starvo Galt has now been identified as James Earl Ray, a Bureau fugitive. This important identification, of course, places the case in a different light. We, therefore, now feel that it is not necessary to retain the evidence, which has been already fully examined, and recommend that the evidence recovered by the Memphis Police Department be returned to that agency at this time. It is suggested, however, that the Department be consulted prior to this action being taken.

This is the case involving the murder of Martin Luther King, Jr.

United Press International announced today the arrest at Caborca, Mexico, on 4/24/68 of a bearded hitchhiker who reportedly resembled James Earl Ray. The individual registered at a hotel there as Daniel David Kennedy, Age forty-two, 548 East 38th Street, Baltimore, Maryland, United States Passport #8627475. No formal charges have been brought against Kennedy by Mexican authorities as yet the United Press International stated.

Mrs. Pearl Kennedy, Baltimore, mother of Daniel David Kennedy, advised the United Press International that Kennedy left Baltimore, 3/24/68, for Mexico and called her Tuesday night, 4/23/68, from Caborca. Mrs. Kennedy described her son as a wounded World War II veteran who receives a monthly compensation check from the Government. She added he is a mixed-up kid who has never been able to hold a steady job because of his war wounds. She stated he does not resemble Ray.

Legat, Mexico City, is checking on the arrest of Kennedy at Caborca to determine his true identity. The Baltimore Office advises that Kennedy is listed in the 1968 Baltimore Telephone Directory and that on two occasions in January, 1966, Kennedy made personal complaints to the Baltimore Office regarding American Nazi Party stickers which were displayed in a Baltimore tavern.

FEDERAL BUREAU OF INVESTIGATION

Lewis Raymond Dowda, confined in County Jail, Marietta, Georgia, after being convicted for armed robbery, advised that he knew Ray in prison from 1963 to 1966. He described Ray as a drug addict who used amphetamine that may have been obtained for him by a guard on the gate of the prison. Dowda claimed that Ray had some outside source of income which supported a \$35 to \$40 a week dope habit as well as providing

him \$15 to \$20 a week on other expenditures. According to Dowda, Ray felt all Negroes in the prison should be killed and made several statements to the effect that if the price was right he would kill Martin Luther King, Jr. Dowda claims that three Negro prisoners were killed after they protested a denial of their right to worship as Black Muslims and he alleges that either Ray killed the Negroes or knows who did. This is being checked.

Louis Lomax, controversial Negro TV personality in Los Angeles, has published a newspaper article alleging that the hunt for King's killer now centers on a "mysterious Hollywood blonde and a New Orleans industrialist." Lomax states the identity of the industrialist is unknown but that Ray met him in downtown New Orleans on 12/17/67 and a search is now on to locate records to reveal the industrialist's name and telephone number. Lomax names the blonde as Jerri and claims to have located her on 4/23/68. He states in his article that on the day Ray left Los Angeles he purchased Jerri an airplane ticket to a mid-western city where she is now visiting her parents.

It has previously been determined that Ray, accompanied by Charles Stein, left Los Angeles, 12/15/67, arriving in New Orleans, 12/17/67. Ray was registered at the Provincial Motel, New Orleans, 12/17-19/67, leaving New Orleans, 12/19/67 and arrived back in Los Angeles, 12/21/67. Ray claimed to Stein that he contacted two men in New Orleans connected with an engineering or contracting company. Extensive investigation has failed to identify any contacts. Records of local telephone calls from the motel had been destroyed. No long distance calls were made from Ray's New Orleans motel room and long distance calls from nearby pay telephones were checked with negative results. Stein stated Ray made several telephone calls while driving toward New Orleans through Texas but could not state locations from which the calls were made.

Stein has been reinterviewed concerning the calls made by Ray in Texas. He states Ray used about six telephones but except for one time he returned so quickly Stein believes the other calls were not completed. On the one occasion Ray was gone long enough to complete a

RE: MURKIN

call they were just west of Houston at a service station just off Interstate 10. The freeway at this point is eight lanes wide and separated from a parallel access road by a fence. The telephone booth is on the access road and a liquor store is nearby. Stein says this call was made at approximately 9 p. m., 12/16/67. Houston is checking this out.

Lomax has been talking to Stein, his sister, Rita Stein, and Stein's cousin, Marie Martin, all of whom knew Ray in Los Angeles. Stein says Lomax has offered to split the reward with him and Stein apparently is trying to play detective. He has been cautioned about withholding information from the FBI.

Lomax's story says Jerri was a habitue of the Sultan Room and the Rabbit's Foot Bar in Los Angeles. Personnel at the Rabbit's Foot advise Jerri is unknown to them but that Lomax has been at the bar asking about her. Bar personnel state Lomax was apparently unsuccessful in developing any information.

Personnel at the Sultan Room state Lomax has been making it his headquarters for his investigation and has become a nuisance. He has made inquiry there concerning Jerri but personnel state she is unknown to them.

Investigation has not identified any Jerri as an associate of Ray. He did take dancing instruction from one Sharon (Sherri?) Rhodes who has previously been interviewed. While in Los Angeles, Ray also reportedly dated a blonde girl named Darrell (phonetic) whom we are attempting to locate.

Lomax has contacted the Los Angeles Office suggesting Agents accompany him and Stein to locate the Texas telephone booth whereupon Agents could obtain pertinent telephone records for Lomax. His offer was declined. Stein advises that he is negotiating a deal with Lomax but Stein is asking \$4,000 to go with Lomax to Texas.

A telephone company contact in Los Angeles advised in confidence that James B. Potter, Jr., member of the City Council, has requested the company to identify the subscribers for numbers Lomax

Memorandum to Mr. DeLoach

may obtain in attempting to trace a long distance call made from some point near Houston in December, 1967. Potter's political position places the telephone company in a difficult position and any request for specific information may be granted; however, the telephone company will make any such information available to us before it is released to Lomax.

ACTION:

All aspects of this investigation continue to receive top priority attention.

The size and style of the numerals and letters on K172 through K175, as well as those appearing on some other known specimens received, are the same as corresponding portions of the laundry tapes appearing on the Q97 sheet and the Q99 pillow case.

Because of the lack of identifying features on which to base a definite opinion, it could not be established that one of the machines used to prepare K172 through K175 was used to prepare the questioned laundry marks. Of these known specimens, only K175 has the letters "O" and "R" spaced the same as on the Q97 and Q99 tags. There are an insufficient number of known specimens available imprinted "2OR-3" to assess the significance of this feature; however, prior examinations indicate this factor alone is not sufficient to identify a laundry tag with a particular machine.

K172 through K177 have been retained.

This is the case involving the murder of Martin Luther King, Jr.

Jerry William Ray, subject's brother, advised that Ray might contact his uncle, William E. Maher, a painting contractor residing at Alton, Illinois. Ray has stayed with this uncle in the past and Jerry Ray expressed the opinion that Maher is the only relative Ray would contact.

William E. Maher has been interviewed and stated that prior to Ray's entry into the Army he worked at a shoe tannery in Hartford, Illinois, where he became associated with an individual who had pro-Nazi leanings; Ray became anti-Negro and anti-Jewish as a result. While in military service, Ray was stationed in Germany where his anti-Negro and anti-Jewish opinions crystallized. Maher said he last saw Ray ten or twelve years ago and to his knowledge Ray has not been in Alton since 1959 when he was involved in an armed robbery and sentenced to prison. Maher stated he could suggest no one in the Alton area acquainted with Ray or to whom Ray might turn for help.

Continuing investigation at Puerto Vallarta, Jalisco, Mexico, indicates Ray spent considerable time with Irma Morales, a prostitute, when he was there in October and November, 1967. Morales has been located in a small town near Guadalajara and furnished a photograph taken of Ray on 11/3/67.

Memorandum to Mr. DeLoach
RE: MURKIN

Morales related that on 10/29/67 she was in a bar with Ray and four Negroes were at a nearby table with several white people. Ray continuously insulted and goaded the Negroes and went to his car to obtain a pistol; Morales saw the handle of the gun in Ray's pocket. When the Negroes left, Ray said he wanted to go after them but Morales told him it was time for the police to check the bar. Ray said he wanted nothing to do with the police and there was no further incident.

Morales also advised that Ray wore dark glasses most of the time while he was in Puerto Vallarta. She last saw him 11/9/67 and has not heard from him since that time.

Raymond Louis Curtis, under life sentence for a Georgia murder, has previously stated he served time with Ray on three different occasions. Curtis also states Ray told Curtis he had engaged in burglaries and payroll jobs while operating out of Quincy, Illinois. Ray also claimed to have hoodlum contacts in Chicago, Detroit, Tampa and Tijuana. Curtis describes Ray as a good poker player and an excellent card handler. While in prison Curtis and Ray cheated fellow prisoners in crooked poker games.

It has previously been reported that Curtis alleged Ray had spoken of a \$1,000,000 bounty on King. Curtis also alleges that when President Kennedy was assassinated word came into the prison that there had been a bounty on the President's head. Curtis claims Ray said a dozen times that if he had been out of prison and had known about a bounty on the President, he would have collected it. Ray allegedly told Curtis a dozen times that if King was still alive when he got out of prison he would like to collect the bounty on King.

Jack Fox Lamphere, Warsaw, Missouri, stated upon interview that he knew Ray at Missouri State Penitentiary and that Ray was close to Jimmy Carpenter, a seventy-year-old con man who took care of Ray's debts in the prison yard. Ray often talked to Lamphere about his liking for the Rogue River area in Oregon. Portland is conducting appropriate investigation.

Memorandum to Mr. DeLoach

We are continuing to vigorously pursue all possibilities of promptly locating Ray and all phases of the investigation are receiving top priority attention.

The identification of the "Galt" writings with K171, as set forth in the attached report, considered all these questioned writings as a unit and it may not be possible to identify a particular specimen with K171 because of the limited nature of the questioned writing involved and the lack of comparable known material. The "Galt" writings are those items attributed to ERIC S. GALT which were previously identified together.

For information, similarities were noted between K171 and the "Lowmyer" signature on Q72.

This is the case involving the murder of Martin Luther King, Jr.

It has previously been reported Sandy Smith advised the Bureau that "Life" magazine had information alleging Curtis Way, Newark, had photographs showing James Earl Ray marching with King two weeks before the murder. It has now been determined that the photographs taken by Way are actually photographs of John Patrick O'Rourke, formerly a Sergeant on the West Orange, New Jersey, Police Department for sixteen years. O'Rourke does not appear to have any connection with this case.

The Laboratory has determined that a piece of brown thread from the room Ray had in a "hippie" rooming house in Atlanta is like the brown thread used to mend undershorts abandoned with the rifle in Memphis at the time of the killing. The undershorts have been traced to Ray by the laundry tag.

Information was received from "Life" magazine that one Earl Smith, Memphis, had allegedly been approached regarding a plot to assassinate King. Smith has been interviewed and related that he served six years in the Air Force as an Explosives Ordnance Disposal Technician. In August, 1968, he was employed at a Western Auto store in Memphis and frequented a bar on Bellevue Street. Smith does not recall the exact location or the name of the bar. While in this tavern Smith states he
