It is suggested in contacts with above establishments the actual operators of Thermo-Seal machines rather than supervisory personnel be contacted. It is further suggested, on the basis of consultation with Textile Marking Machine Company personnel that the letter "O" in instant tape may have been used rather than a dash for first character. If the code is recognizable by insertion of a dash instead of letter "O", or if the code is recognizable as it appears on instant tape, obtain sample of tape and immediately submit to FBI Laboratory for examination.

On 4/10/68, JUDSON RANDA LETT, Chief Analyst, Analysis Laboratory, Institute Cleaning Plant, 8021 Georgia Avenue, Silver Springs, Maryland, advised the institute supplies dry cleaning methods throughout the United States and the world.

LETT advised upon viewing the photos of the Thermal Seal Markings, that he knew of no way to identify the tape markings with any specific laundry-cleaners. He advised that markings are significant to a particular laundry-cleaners, but the only way to determine the specific establishment would be by process of elimination. This could only be done by showing the thermo tape to these establishments.

LETT advised that the red thermo tape is used by some laundry-cleaners to indicate the items are to be handled as a special, that is being done as soon as possible.

LETT advised that there are three methods of marking clothes. (1) thermal seal, (2) permanent ink markings, and (3) pre-marked strip tags, which are stapled on the clothes.

Re Albany teletype, 4/11/68.

Enclosed herewith via Registered Mail to FBI Laboratory is Hulse Dry Cleaning and Laundry Centers, Inc., Augusta, Ga., invoice with five red laundry tags attached. Sample tags were obtained from machine used by Taylor-Hulse Dry Cleaning and Laundry, Augusta, Ga., on 4/11/68.

On 4/11/68, MICHAEL TAYLOR, part owner, Taylor-Hulse Dry Cleaning and Laundry, 1976 Ellis St., Augusta, Ga., advised that his company uses ~~Thermoseal marking~~ machine to attach cloth laundry tags to garments. They use code with two numerals designating lot number followed by letter designating week followed by number designating number of bundle. They use 11 colors and rotate colors after going through alphabet when starting over at A. TAYLOR checked his records and determined that the last time they issued number 02B 6 on red tag was on 7/13/67. TAYLOR located laundry ticket marked red 02B 6. This ticket was given to J. B. MC MICHAEL, 2082 Greene St., Augusta, Ga. It was dated 7/13/67, and covered laundry of one shirt, cost 30¢. TAYLOR said this price indicated the item laundered was an outer shirt as opposed to an undershirt. TAYLOR added that J. B. MC MICHAEL is his grandfather, is employed as secretary to all Scottish Rites bodies in the Augusta, Ga. area with his office in the BonAir Hotel. TAYLOR stated he

Enclosed for the FBI Laboratory are two 3" by 5" cards containing six Thermo Seal pieces of marking tape.

On 4/11/68, Mr. JOSEPH A. YOUNG, Manager, Bonnie Bright Laundry (formerly known as Farlington Laundry), 3800 South Four Mile Run Drive, Arlington, Va., advised SA JOHN W. PFAFF, JR. that his company has used white Thermo Seal marking tape exclusively for over two years. Mr. YOUNG ~~made available~~ six samples of Thermo Seal marking tape which were affixed to two 3" by 5" cards.

Mr. YOUNG noted the machine is capable of making six characters at one time and that the first four characters on this machine are slightly smaller than the last four characters. His company uses a coding system consisting of four alphabetic letters, a dash and one number. According to Mr. YOUNG, there is no standard coding process and each individual laundry is free to employ its own individual coding system.
