MURKIN

Source at 113 - 14th Street, N.E., residence of ERIC STARVO GALT in Atlanta, made available the following items, which are being submitted under separate cover to the FBI Lab for any examination determined desirable. It is requested results be furnished Atlanta and Memphis.

- 1) Three paper-covered wire coat hangers.
- 2) One wire coat hanger with cardboard roller.
- 3) Two cardboard inserts for coat hangers.
- 4) One shoe shine cloth.
- 5) One pair of white socks with blue and red diamonds.

REPORT
of theFEDERAL BUREAU OF INVESTIGATION
WASHINGTON, D. C. 20535

To: FBI, Miami (44-1854)

Date: April 17, 1968

Re: MURKIN
CR

FBI File No. 44-38861

Lab. No. D-560661 IH

Specimens received 4/12/68

Q124 A piece of brown wrapping paper containing a label bearing the number 777, a Garber shipping slip containing the number 52360, a three inch slip of paper ripped from the shipping slip, and a piece of cellophane tape

Q125 A piece of brown wrapping paper with a label attached bearing the number 6829

Q126 A cardboard box, postmarked 4/5/68

Result of examination:

The hand printing appearing on the slip of paper comprising a portion of Q124 was searched in the Anonymous Letter File without effecting an identification. Appropriate photographs have been added to this file for future reference.

The cellophane tape comprising a portion of Q124 is of common $\frac{1}{2}$ inch-wide variety, the ends of which appear to have been torn or cut unevenly.

Due to the limited nature of the questioned hand printing on Q124 and because of unexplained variations, a definite conclusion could not be reached whether the hand printing on Q124 is identical to the hand printing appearing on documents attributable to Eric S. Galt, submitted in this case. A number of significant differences were noted indicating

this questioned hand printing may not have been prepared by the writer of the hand printing on documents attributable to Galt.

Q124 through Q126 are temporarily retained.
Appropriate photographs of Q124 and Q125 only have been made.

REPORT
of theFEDERAL BUREAU OF INVESTIGATION
WASHINGTON, D. C.

To: FBI, Memphis

Date: April 18, 1968

Re: MURKIN

FBI File No. 44-38861

Lab. No. PC-A5530 BX GH JV

Specimens received 4/8/68

CLOTHING FROM MARTIN LUTHER KING, JR.

Q76 Shirt
Q77 Necktie
Q78 Suit coat
Q79 Trousers
Q80-Q81 Pair of socks
Q82 Undershorts
Q83 Undershirt
Q84-Q85 Pair of shoes

Results of examination:

There is a large hole in the right front portion of the collar of the Q76 shirt. The Q77 necktie has been forcibly torn apart in the right front neck portion also. The object or objects causing the damage were larger than a bullet of .30 caliber size and irregular in shape as all of the yarns were broken, not cut. One or more segments of bone could not be eliminated as the cause of the damage.

The right lapel of the Q78 coat has three damaged areas on the surface of the fabric. These areas have been torn by some object or objects, but the damage does not extend through the lapel. The torn areas vary from $\frac{1}{4}$ " to 1" in length and the condition of the yarn indicates the object or objects struck the coat from above and probably glanced off the coat.

Due to the sizes and ragged edges of the damaged areas of the Q76 shirt, Q77 necktie and Q78 suit coat, it was not possible to recognize any bullet holes or to

determine from visual examination whether or not a bullet or any bullet fragments had passed through or struck these items.

No bullet holes were found in Q79 through Q85.

The edges of the hole torn in the Q76 shirt collar, the edges of the three tears on the collar of the Q78 suit coat and the material near the ends of the Q77 necktie were contaminated with traces of lead which could have come from a bullet or from bullet fragments. The lead contamination of these items could not be associated with a particular bullet or lead source.

Examination requested by: **Memphis**

Reference: **Airtel 4/4/68**

Examination requested: **Firearms - Spectrographic - Microscopic**

Remarks: **Specimens Q76 through Q85 are being temporarily retained in the Laboratory.**

Serological examinations of the victim's clothing will be reported separately.

A microscopic examination of the fabric and yarns in the damaged areas of Q76 and Q77 indicates the object or objects causing the damage may have entered the collar from above and traveled downward through the collar, severed the necktie and exited immediately below the collar. Some of the material causing the damage to Q76 and Q77 could have also caused the damage to the Q78 coat at the same time due to the type and location of the damage.

DELIVERED APRIL 5, 1968 BY SA ROBERT FITZPATRICK, MEMPHIS OFFICE

Submitted by Airtel #1 as recovered by Inspector N. E. Zachary,
Memphis Police Department in vicinity of 424 South Main Street:

- Q1 Rifle box for Browning .243 Winchester caliber rifle,
Serial Number 4744Z5
- Q2 .30-06 Springfield caliber Remington "Gamemaster" slide-
action rifle, Model 760, Serial Number 461476, with Redfield
telescope sight, Serial Number A17350, with clip
- Q3 .30-06 Springfield caliber Remington-Peters cartridge case
- Q4-Q12 Nine .30-06 Springfield caliber cartridges (five Remington-
Peters and four R-A-55) in Peters cartridge box, Index
Number 3033
- Q13 Large green and brown cloth

Submitted by Airtel #2 as recovered by Inspector N. E. Zachary,
Memphis Police Department in vicinity of 424 South Main Street:

- Q14 "Banner" binocular (Bushnell) 7 by 35, Serial Number DQ408664
(allegedly in zipper bag when recovered)
- Q15 Zipper bag

ITEMS FROM OUTSIDE COMPARTMENT OF ZIPPER BAG

- Q16 Duck-bill pliers and tack hammer marked "MAGNETIC"
- Q17 Box of "BAND-AID sheer strips"
- Q18 Georgia-Alabama Standard Oil map
- Q19 "Commercial Appeal" Memphis newspaper, first
section only, issue of April 4, 1968
- Q20 Standard Oil map of the United States

ITEM INSIDE ZIPPER BAG, IN POCKET

Q21 Partial roll of toilet paper

ITEMS LOOSE INSIDE ZIPPER BAG

Q22 Binocular case with instruction booklet, lens cloth and guarantee card

Q23 Binocular box, cardboard

Q24 "Gillette" travel kit purchased at Oliver Rexall Store, Whitehaven, price \$1.89, with razor, lotion shaving cream, deodorant, hair cream and razor blade in dispenser

Q25 Gray paper sack bearing marking "YORK ARMS CO." with receipt dated 4-4-68 in amount of \$41.55

Q26 White and yellow towel

Q27 White handkerchief

Q28 Tube of "Colgate" toothpaste

Q29-Q30 Pair of black socks

Q31 Seven-ounce can of "RIGHT GUARD" deodorant

Q32 Channel Master radio

Q33 Bottle of "BUFFERIN"

Q34 Elastic belt

Q35 Tube of "BRYLCREEM"

Q36 Bottle of "ONE A DAY" vitamins

Q37 Small bar of "Cashmere Bouquet" soap

Q38 Hairbrush

Q39 Bar of "dial" soap, bath size

Q40 Tube of "Head & Shoulders" shampoo

ITEMS LOOSE INSIDE ZIPPER BAG (continued)

- Q41 Can of brown "KIWI" boot polish
- Q42 Can of "PALMOLIVE RAPID-SHAVE" shaving cream
- Q43 Gray-brown button (in sack with beer)
- Q44 Black button (in sack with beer)
- Q45 Toothbrush, "Pepsodent"
- Q46 Safety razor, without blade
- Q47 Plastic bottle of "MENNEN afta" lotion
- Q48 Small bar of "Cameo" toilet soap
- Q49 Small bar of "Cashmere Bouquet" soap, bearing advertisement of Friendship Inns
- Q50-Q51 Two bobby pins
- Q52-Q53 Two cans of "Schlitz" beer, pull tab
- Q54 Plastic "six-pack" carrying device
- Q55 Brown paper sack (containing beer)
- Q56 Small brown paper sack, empty
- Q57 Key
- Q58 Toothpick
- Q59 Metal ring
- Q60-Q61 Two coat hangers
- Q62 Two links from "ADJUST-O" watchband
- Q63 Gray-brown button

Submitted by Airtel #3:

Q64 Bullet from body

Q65 Twenty dollar Federal Reserve Note, Series 1963A,
Serial Number F14002844A

Q66 Twenty dollar Federal Reserve Note, Series 1963A,
Serial Number H16164663A

Q67 Twenty dollar Federal Reserve Note, Series 1963,
Serial Number F06445143A

Q68 Fingerprint card for Bessie Ruth Brewer

Page 4
PC-A5498 BX

Results of examination:

FIREARMS - TOOLMARKS EXAMINATIONS

The serial number on the black rifle box, Q1, was determined to be 4744Z5. This box originally contained a .243 Winchester caliber Browning rifle.

The Q3 cartridge case was identified as having been fired in the Q2 rifle. The only marks found on Q3, other than marks made during manufacturing procedures, were one extractor mark which was identified as having been made by the extractor of the Q2 rifle and the marks left on Q3 by the Q2 rifle when Q3 was fired.

The bullet, Q64, from the victim, is a .30 caliber metal-jacketed "soft-point" sporting type bullet of Remington-Peters manufacture which was fired from a barrel rifled with six lands and grooves, right twist. Based on the physical characteristics of the general rifling impressions, the Q64 bullet could have been fired from the Remington rifle, Q2. The Q64 bullet has been distorted due to mutilation and insufficient marks of value for identification remain on this bullet. Therefore, it was not possible to determine whether or not Q64 was fired from the Q2 rifle.

The Q64 bullet is identical in all remaining observable physical characteristics to the 150 grain bullets in the five loaded .30-06 Springfield caliber Remington-Peters cartridges, Q4 through Q8.

Based on physical characteristics, specimen Q64 and the cartridge case, Q3, could originally have been portions of the same cartridge, which would be the same as the Q4 through Q8 cartridges. No marks are present on Q64 of the type which would permit determining positively whether or not the Q64 bullet was originally a portion of the cartridge represented by Q3.

The five cartridges, Q4 through Q8, conform in description to the type of cartridges packaged by the manufacturer in the Peters cartridge box in which they were submitted. Because of the manner in which cartridges are boxed at the factory, it is not possible to determine whether or not the cartridge represented by Q3 or any of the

Q4 through Q8 cartridges were packaged in the same box by the manufacturer.

The Peters cartridge box in which Q4 through Q8 were submitted also contained four U. S. Military cartridges, containing full-metal jacketed 150 grain bullets, different from Q64. The manufacturer's headstamp on these cartridges is "R A 55." The "R A" indicates that these cartridges were manufactured by Remington Arms Company, Incorporated, Bridgeport, Connecticut. Cartridges bearing "55" are those normally manufactured in 1955.

Examination of the four cartridges, Q9 through Q12, revealed no marks indicating these cartridges had ever been loaded into a weapon. The only marks on these cartridges appear to be marks produced by the manufacturer's machines and marks of the type produced by metal-link ammunition belts of the type used with machine guns. The link belt marks on Q9 through Q12 are suitable for comparison with the metal links from which the cartridges were withdrawn. In metal-link belts, each cartridge serves to hold adjacent links together. As each cartridge is withdrawn, a link (which is expendable) separates from the rest of the belt.

No aluminum, screen-type scratches, paint, wood or other foreign material was found on the muzzle or side of the barrel of the Q2 rifle.

No record was located in the National Stolen Property Index or the National Crime Information Center for a Browning rifle, Serial Number 4744Z5, as originally contained in Q1; for the Q2 rifle; for a Redfield 2X-7X variable telescope sight, Serial Number A17350 (which is mounted on Q2), or for the Bushnell binocular, Q14, Serial Number DQ408664.

No serial number which would facilitate tracing was found on the Weaver telescope sight mount and base on Q2. The screws used to secure the sight tube to the mount were "finger" tight. No tool was required to loosen them and no toolmarks of value for comparison are present.

The magnification setting of the telescope sight tube was "6 $\frac{1}{2}$ x" when the Q2 rifle was received. Therefore, objects viewed would be enlarged to approximately 6 $\frac{1}{2}$ times normal size.

HAIR EXAMINATION

Numerous brown head hairs of Caucasian origin were found on or in specimens Q13, Q15, Q26, Q29, Q30 and Q38. Numerous dark brown to black beard fragments of Caucasian origin were removed from the Q24 and Q46 razors. All of these hairs and beard fragments have been mounted on glass slides for comparisons with any suspects you may develop.

No Negroid hairs were found on or in any of the above-listed evidence.

FIBER EXAMINATION

Brown cotton fibers, green cotton fibers and lustrous green viscose fibers like those composing the Q13 bedspread were found on the Q2 rifle and in the debris removed from the Q1 box. These fibers could have originated from Q13.

MISCELLANEOUS EXAMINATIONS

Specimen Q1 is a black cardboard box measuring 6 $\frac{3}{4}$ " x 2 $\frac{1}{2}$ " x 44 $\frac{1}{4}$ ". Printing on the box indicates it contained a Browning Mauser rifle, "SAFARI" grade. The number "130712" is printed on the end of the box and "4744Z5" has been hand printed on the same end.

Specimen Q13 is a large green and brown bedspread. It is composed of approximately 50% brown cotton, 25% green cotton and 25% lustrous green viscose fibers. It measures 106 $\frac{1}{4}$ " x 85 $\frac{1}{4}$ " and has a herringbone design. The ribs of the herringbone have a 40° angle and each rib is $\frac{3}{4}$ " in width. No visible, invisible or manufacturer's markings were found on Q13. It exhibits above-average wear and is of the type sometimes found in hotels or motels.

The Bushnell Q14 binocular was manufactured in Japan. Bushnell binoculars are distributed by Bushnell and Company, Incorporated, 639 Bushnell Building, Pasadena, California. Specimen Q14 bears number "DQ408664." A paper

label on the center post indicates Q14 was passed by the "Japan Telescopes Inspection Institute."

The Q15 zipper bag measures 15" x 20" x 5 $\frac{1}{4}$ " and is an inexpensive bag of Japanese manufacture. The bag is a "Tel-Star" model that retails for about six to seven dollars. This model bag comes in six different sizes, 16", 18", 20", 22", 24" and 26". The importer or jobber for "Tel-Star" luggage is the United Products Corporation, 2500 Genessee, Kansas City, Missouri, 64141.

The Q16 duck-bill pliers are 7 $\frac{3}{4}$ " in length and the jaws are 1 $\frac{3}{8}$ " long. A price tag on one handle bears "ROMPAGE HARDWARE \$1.98." Just above the word "Rompag" are three characters printed in blue. Two characters on the left appear to be "10." The single character on the right appears to be "O." No other data was noted on the label.

Also in Q16 is a small tack hammer with a metal head 4 $\frac{1}{8}$ " long. Imprinted on the wooden handle is "MAGNETIC" The handle is painted white with a blue band around the end of the handle. The U. S. Patent Office has no record of the trademark on this hammer.

The Q17 metal "BAND-AID" box contains twenty-one regular adhesive bandages and ten "JUNIOR" adhesive bandages. The number of bandages in the box agrees with the count printed on the box. A small round price tag on top of Q17 has the numerals ".57."

Nothing of significance was noted concerning the partial role of toilet paper, Q21.

Specimen Q22 is a black binocular case for a Bushnell binocular. Inside Q22 was found an instruction booklet, lens cloth and guarantee card.

Specimen Q23 is a cardboard box for a Bushnell binocular. A price tag on Q23 has the numerals "11-67" and "\$39.95" printed on it. Also on this box was hand printed:

"3995
-160
4155"

Specimen Q24 is a travel kit manufactured by Gillette. It is clear plastic and contains the following:

- 1 - Safety razor with double-edge blade
- 2 - Package of "Gillette" stainless steel double-edge blades
- 3 - 1.3 ounce can of "foamy" shaving cream
- 4 - 1 ounce can "RIGHT GUARD" deodorant
- 5 - $\frac{1}{2}$ ounce bottle "Sun Up" after shave lotion
- 6 - $\frac{3}{8}$ ounce tube "HEADS UP" hair dressing

A price tag on the top of Q24 has the following printed on it: "OLIVER REXALL," "WHITEHAVEN PHONE 397-2301," "\$1.89," "E" and "00."

The Q25 gray paper bag has the name and address of the "YORK ARMS CO." of Memphis printed on it. Inside this bag was found a cash register receipt dated "APR 4" in the amount of "\$041.55 CBH." The numerals "083" also appear on the receipt.

The Q26 white and yellow checkered towel is 26" x 15". No labels or visible or invisible markings were found on Q26.

Specimen Q27 is an inexpensive common man's handkerchief measuring $14\frac{1}{2}$ " x 15". No labels or markings were found on Q27.

Specimen Q28 is a partial tube of "Colgate" toothpaste, 3.25 ounce size.

The Q29 and Q30 socks are a pair of black knee length synthetic stretch socks. No markings or labels were found on these socks.

The Q31 can of "RIGHT GUARD" deodorant is a 7 ounce size. "M313" is printed in black on the bottom of the can.

Specimen Q32 is a Channel Master radio receiver. A label affixed to the inside of the rear cover indicates that the receiver is Model 6502, 6 transistor, super heterodyne, with a frequency range of 535-1605 Kc/s and operates

on a 9-volt battery supply. The words "CHANNEL MASTER CORP." are imprinted on the bottom of the label. The words "HONG KONG" are molded on the outside of the light-colored plastic cover, however, some components are marked "JAPAN." A 9-volt Eveready battery, #216, was connected inside the case. The front of the case is made of polished or plated metal and is stamped "6 TRANSISTOR CHANNEL MASTER." The remainder of the case, about one-third down each side, is maroon-colored plastic. The case measures approximately 4" x 2 3/8" x 1 1/4".

Radio products bearing the Channel Master name are very common.

When received, the dial indicated approximately "10" and was turned to approximately 1020 Kc/s. The tuning range of the receiver is approximately 530 Kc/s to 1660 Kc/s, which covers the regular broadcast band. The receiver was operational when received.

The Q32 radio bears scratches on one end interpreted to read "00416."

The Q33 plastic "BUFFERIN" bottle is a 60-tablet size and contained 10 whole tablets and 2 partial tablets, all bearing the letter "B."

Specimen Q34 is a man's elastic belt bearing Greek or Roman heads on the buckle. The belt is 3/4" wide and 31" long, unstretched. The waist measurement of the wearer could not be determined in view of the type of belt.

Specimen Q35 is a partial tube of "BRYLCREEM" hair dressing, 3 ounce size.

Specimen Q36 is a bottle of "ONE A DAY" vitamins, 25-tablet size. There were 21 tablets in the bottle.

Specimen Q37 is a small hotel-size bar of "Cashmere Bouquet" soap.

Specimen Q38 is a clear plastic hairbrush with white synthetic bristles. "U.S.A." has been molded to the underside of the handle.

The Q39 bar of "dial" soap is a 4 7/8 ounce size and has the price "2/45¢" stamped on one end in blue ink.

The Q40 tube of "Head & Shoulders" shampoo is a 2.7 ounce size. It bears a price label with "LIGGETT-REXALL 1678 1.10" on the side.

The Q41 can of "KIWI" brown boot polish is a 1 1/8 ounce size. Some of the polish has been used.

A price tag on the Q42 can of "PALMOLIVE RAPID-SHAVE" menthol shaving cream bears "LIGGETT-REXALL 3478 .79."

Nothing of significance was noted about the Q43, Q44 or Q63 buttons; however, they are suitable for comparison with other buttons present on suspect garments.

Specimen Q45 is a used red-handled "Pepsodent" brand toothbrush. "U.S.A. M K5" is present on the underside of Q45.

The Q46 razor is a "Gillette" make and has no blade in it.

A price tag is on the Q47 3.75 ounce bottle of "MENNEN afta" after shave and skin conditioner lotion bearing "\$1.00 PLS TAX." "202x" is printed in blue ink on the bottom of Q47.

Specimen Q48 is a small bar of "Cameo" soap manufactured by the Brunswick Soap Company, Brooklyn, New York.

Specimen Q49 is a small bar of "Cashmere Bouquet" soap, a product of Colgate-Palmolive Company, New York. A shield with "Member Friendship Inns" has been printed on the wrapper.

The Q50 and Q51 bobby pins are light brown colored, common pins.

Specimens Q52 and Q53 are full cans of Schlitz beer. "MISSISSIPPI TAX PAID 4 CENTS" has been printed in black on the bottom of each can. "03 has been stamped into the 158"

metal in the bottom of each can. Both cans are alike. These cans were found attached to the Q54 carrying device in the Q55 paper bag.

Nothing of apparent significance was noted about the 4" x 6" brown paper Q56 bag.

The Q57 key fits the lock on the Q15 zipper bag and probably belongs to this bag.

Specimen Q58 is a common, round, used toothpick.

The metal split ring, Q59, has overlapping ends. It appears to be the type of ring that new keys are attached to.

Nothing of significance was noted about the Q60 and Q61 coat hangers.

Specimen Q62 is a two-link portion of an "ADJUST-O" silver-colored watchband. The links may be compared with the watchband should same be recovered.

SOIL EXAMINATION

Fine smears and deposits of brown silty soil having the appearance of being deposited while wet were found on Q13. The soil in these smears and deposits is suitable for comparison purposes. The specific origin of the soil cannot be determined by a Laboratory examination.

DOCUMENT EXAMINATION

Specimens Q18, Q19, Q20, Q23, Q25, Q55 and Q56 were examined for writings and pertinent indented impressions, but nothing of significance was noted.

The Q55 bag is imprinted "HOMESTEAD" "STUBBY." Information available in the Laboratory shows that the "HOMESTEAD" brand name is registered to the Graham Paper Company, 1014 Spruce Street, St. Louis, Missouri 63102, while "STUBBY" refers to the type of bag.

DELIVERED APRIL 5, 1968 BY SA ROBERT FITZPATRICK, MEMPHIS OFFICE

Submitted by Airtel #1 as recovered by Inspector N. E. Zachary,
Memphis Police Department in vicinity of 424 South Main Street:

- Q1 Rifle box for Browning .243 Winchester caliber rifle,
Serial Number 4744Z5
- Q2 .30-06 Springfield caliber Remington "Gamemaster" slide-
action rifle, Model 760, Serial Number 461476, with Redfield
telescope sight, Serial Number A17350, with clip
- Q3 .30-06 Springfield caliber Remington-Peters cartridge case
- Q4-Q12 Nine .30-06 Springfield caliber cartridges (five Remington-
Peters and four R-A-55) in Peters cartridge box, Index
Number 3033
- Q13 Large green and brown cloth

Submitted by Airtel #2 as recovered by Inspector N. E. Zachary,
Memphis Police Department in vicinity of 424 South Main Street:

- Q14 "Banner" binocular (Bushnell) 7 by 35, Serial Number DQ408664
(allegedly in zipper bag when recovered)
- Q15 Zipper bag

ITEMS FROM OUTSIDE COMPARTMENT OF ZIPPER BAG

- Q16 Duck-bill pliers and tack hammer marked "MAGNETIC"
- Q17 Box of "BAND-AID sheer strips"
- Q18 Georgia-Alabama Standard Oil map
- Q19 "Commercial Appeal" Memphis newspaper, first
section only, issue of April 4, 1968
- Q20 Standard Oil map of the United States

ITEM INSIDE ZIPPER BAG, IN POCKET

Q21 Partial roll of toilet paper

ITEMS LOOSE INSIDE ZIPPER BAG

Q22 Binocular case with instruction booklet, lens cloth and guarantee card

Q23 Binocular box, cardboard

Q24 "Gillette" travel kit purchased at Oliver Rexall Store, Whitehaven, price \$1.89, with razor, lotion shaving cream, deodorant, hair cream and razor blade in dispenser

Q25 Gray paper sack bearing marking "YORK ARMS CO." with receipt dated 4-4-68 in amount of \$41.55

Q26 White and yellow towel

Q27 White handkerchief

Q28 Tube of "Colgate" toothpaste

Q29-Q30 Pair of black socks

Q31 Seven-ounce can of "RIGHT GUARD" deodorant

Q32 Channel Master radio

Q33 Bottle of "BUFFERIN"

Q34 Elastic belt

Q35 Tube of "BRYLCREEM"

Q36 Bottle of "ONE A DAY" vitamins

Q37 Small bar of "Cashmere Bouquet" soap

Q38 Hairbrush

Q39 Bar of "dial" soap, bath size

Q40 Tube of "Head & Shoulders" shampoo

ITEMS LOOSE INSIDE ZIPPER BAG (continued)

- Q41 Can of brown "KIWI" boot polish
- Q42 Can of "PALMOLIVE RAPID-SHAVE" shaving cream
- Q43 Gray-brown button (in sack with beer)
- Q44 Black button (in sack with beer)
- Q45 Toothbrush, "Pepsodent"
- Q46 Safety razor, without blade
- Q47 Plastic bottle of "MENNEN afta" lotion
- Q48 Small bar of "Cameo" toilet soap
- Q49 Small bar of "Cashmere Bouquet" soap, bearing advertisement of Friendship Inns
- Q50-Q51 Two bobby pins
- Q52-Q53 Two cans of "Schlitz" beer, pull tab
- Q54 Plastic "six-pack" carrying device
- Q55 Brown paper sack (containing beer)
- Q56 Small brown paper sack, empty
- Q57 Key
- Q58 Toothpick
- Q59 Metal ring
- Q60-Q61 Two coat hangers
- Q62 Two links from "ADJUST-0" watchband
- Q63 Gray-brown button

Submitted by Airtel #3:

- Q64 Bullet from body
- Q65 Twenty dollar Federal Reserve Note, Series 1963A,
Serial Number F14002844A
- Q66 Twenty dollar Federal Reserve Note, Series 1963A,
Serial Number H16164663A
- Q67 Twenty dollar Federal Reserve Note, Series 1963,
Serial Number F06445143A
- Q68 Fingerprint card for Bessie Ruth Brewer

Page 4
PC-A5498 BX

Results of examination:

FIREARMS - TOOLMARKS EXAMINATIONS

The serial number on the black rifle box, Q1, was determined to be 474425. This box originally contained a .243 Winchester caliber Browning rifle.

The Q3 cartridge case was identified as having been fired in the Q2 rifle. The only marks found on Q3, other than marks made during manufacturing procedures, were one extractor mark which was identified as having been made by the extractor of the Q2 rifle and the marks left on Q3 by the Q2 rifle when Q3 was fired.

The bullet, Q64, from the victim, is a .30 caliber metal-jacketed "soft-point" sporting type bullet of Remington-Peters manufacture which was fired from a barrel rifled with six lands and grooves, right twist. Based on the physical characteristics of the general rifling impressions, the Q64 bullet could have been fired from the Remington rifle, Q2. The Q64 bullet has been distorted due to mutilation and insufficient marks of value for identification remain on this bullet. Therefore, it was not possible to determine whether or not Q64 was fired from the Q2 rifle.

The Q64 bullet is identical in all remaining observable physical characteristics to the 150 grain bullets in the five loaded .30-06 Springfield caliber Remington-Peters cartridges, Q4 through Q8.

Based on physical characteristics, specimen Q64 and the cartridge case, Q3, could originally have been portions of the same cartridge, which would be the same as the Q4 through Q8 cartridges. No marks are present on Q64 of the type which would permit determining positively whether or not the Q64 bullet was originally a portion of the cartridge represented by Q3.

The five cartridges, Q4 through Q8, conform in description to the type of cartridges packaged by the manufacturer in the Peters cartridge box in which they were submitted. Because of the manner in which cartridges are boxed at the factory, it is not possible to determine whether or not the cartridge represented by Q3 or any of the

Q4 through Q8 cartridges were packaged in the same box by the manufacturer.

The Peters cartridge box in which Q4 through Q8 were submitted also contained four U. S. Military cartridges, containing full-metal jacketed 150 grain bullets, different from Q64. The manufacturer's headstamp on these cartridges is "R A 55." The "R A" indicates that these cartridges were manufactured by Remington Arms Company, Incorporated, Bridgeport, Connecticut. Cartridges bearing "55" are those normally manufactured in 1955.

Examination of the four cartridges, Q9 through Q12, revealed no marks indicating these cartridges had ever been loaded into a weapon. The only marks on these cartridges appear to be marks produced by the manufacturer's machines and marks of the type produced by metal-link ammunition belts of the type used with machine guns. The link belt marks on Q9 through Q12 are suitable for comparison with the metal links from which the cartridges were withdrawn. In metal-link belts, each cartridge serves to hold adjacent links together. As each cartridge is withdrawn, a link (which is expendable) separates from the rest of the belt.

No aluminum, screen-type scratches, paint, wood or other foreign material was found on the muzzle or side of the barrel of the Q2 rifle.

No record was located in the National Stolen Property Index or the National Crime Information Center for a Browning rifle, Serial Number 474425, as originally contained in Q1; for the Q2 rifle; for a Redfield 2X-7X variable telescope sight, Serial Number A17350 (which is mounted on Q2), or for the Bushnell binocular, Q14, Serial Number BQ408664.

No serial number which would facilitate tracing was found on the Weaver telescope sight mount and base on Q2. The screws used to secure the sight tube to the mount were "finger" tight. No tool was required to loosen them and no toolmarks of value for comparison are present.

The magnification setting of the telescope sight tube was "6½x" when the Q2 rifle was received. Therefore, objects viewed would be enlarged to approximately 6½ times normal size.

HAIR EXAMINATION

Numerous brown head hairs of Caucasian origin were found on or in specimens Q13, Q15, Q26, Q29, Q30 and Q38. Numerous dark brown to black beard fragments of Caucasian origin were removed from the Q24 and Q46 razors. All of these hairs and beard fragments have been mounted on glass slides for comparisons with any suspects you may develop.

No Negroid hairs were found on or in any of the above-listed evidence.

FIBER EXAMINATION

Brown cotton fibers, green cotton fibers and lustrous green viscose fibers like those composing the Q13 bedspread were found on the Q2 rifle and in the debris removed from the Q1 box. These fibers could have originated from Q13.

MISCELLANEOUS EXAMINATIONS

Specimen Q1 is a black cardboard box measuring 6 3/4" x 2 1/2" x 44 1/2". Printing on the box indicates it contained a Browning Mauser rifle, "SAFARI" grade. The number "130712" is printed on the end of the box and "4744Z5" has been hand printed on the same end.

Specimen Q13 is a large green and brown bedspread. It is composed of approximately 50% brown cotton, 25% green cotton and 25% lustrous green viscose fibers. It measures 106 1/2" x 86 1/2" and has a herringbone design. The ribs of the herringbone have a 40° angle and each rib is 3/4" in width. No visible, invisible or manufacturer's markings were found on Q13. It exhibits above-average wear and is of the type sometimes found in hotels or motels.

The Bushnell Q14 binocular was manufactured in Japan. Bushnell binoculars are distributed by Bushnell and Company, Incorporated, 639 Bushnell Building, Pasadena, California. Specimen Q14 bears number "DQ408664." A paper

label on the center post indicates Q14 was passed by the "Japan Telescopes Inspection Institute."

The Q15 zipper bag measures 15" x 20" x 3½" and is an inexpensive bag of Japanese manufacture. The bag is a "Tel-Star" model that retails for about six to seven dollars. This model bag comes in six different sizes, 16", 18", 20", 22", 24" and 26". The importer or jobber for "Tel-Star" luggage is the United Products Corporation, 2500 Genessee, Kansas City, Missouri, 64141.

The Q16 : ~~black~~ ^{black} pliers are 7 ¾" in length and the jaws are 1 ½" long. A price tag on one handle bears "ROMPAGE HARDWARE \$1.98." Just above the word "Rompage" are three characters printed in blue. Two characters on the left appear to be "10." The single character on the right appears to be "0." No other data was noted on the label.

Also in Q16 is a small tack hammer with a metal head 4 1/8" long. Imprinted on the wooden handle is "MAGNETIC". The handle is painted white with a blue band around the end of the handle. The U. S. Patent Office has no record of the trademark on this hammer.

The Q17 metal "BAND-AID" box contains twenty-one regular adhesive bandages and ten "JUNIOR" adhesive bandages. The number of bandages in the box agrees with the count printed on the box. A small round price tag on top of Q17 has the numerals ".57."

Nothing of significance was noted concerning the partial role of toilet paper, Q21.

Specimen Q22 is a black binocular case for a Bushnell binocular. Inside Q22 was found an instruction booklet, lens cloth and guarantee card.

Specimen Q23 is a cardboard box for a Bushnell binocular. A price tag on Q23 has the numerals "11-67" and "\$39.95" printed on it. Also on this box was hand printed:

"3995
160
4155"

Specimen Q24 is a travel kit manufactured by Gillette. It is clear plastic and contains the following:

- 1 - Safety razor with double-edge blade
- 2 - Package of "Gillette" stainless steel double-edge blades
- 3 - 1.3 ounce can of "foamy" shaving cream
- 4 - 1 ounce can "RIGHT GUARD" deodorant
- 5 - $\frac{1}{2}$ ounce bottle "Sun Up" after shave lotion
- 6 - $\frac{3}{8}$ ounce tube "HEADS UP" hair dressing

A price tag on the top of Q24 has the following printed on it: "OLIVER REKALL," "WHITEHAVEN PHONE 397-2301," "\$1.89," "E" and "00."

The Q25 gray paper bag has the name and address of the "YORK ARMS CO." of Memphis printed on it. Inside this bag was found a cash register receipt dated "APR 4" in the amount of "\$041.55 CASH." The numerals "083" also appear on the receipt.

The Q26 white and yellow checkered towel is 26" x 15". No labels or visible or invisible markings were found on Q26.

Specimen Q27 is an inexpensive common man's handkerchief measuring $14\frac{1}{2}$ " x 15". No labels or markings were found on Q27.

Specimen Q28 is a partial tube of "Colgate" toothpaste, 3.25 ounce size.

The Q29 and Q30 socks are a pair of black knee length synthetic stretch socks. No markings or labels were found on these socks.

The Q31 can of "RIGHT GUARD" deodorant is a 7 ounce size. "M313" is printed in black on the bottom of the can.

Specimen Q32 is a Channel Master radio receiver. A label affixed to the inside of the rear cover indicates that the receiver is Model 6502, 6 transistor, super heterodyne, with a frequency range of 535-1605 Kc/s and operates

on a 9-volt battery supply. The words "CHANNEL MASTER CORP." are imprinted on the bottom of the label. The words "HONG KONG" are molded on the outside of the light-colored plastic cover, however, some components are marked "JAPAN." A 9-volt Eveready battery, #216, was connected inside the case. The front of the case is made of polished or plated metal and is stamped "6 TRANSISTOR CHANNEL MASTER." The remainder of the case, about one-third down each side, is maroon-colored plastic. The case measures approximately 4" x 2 3/8" x 1 1/4".

Radio products bearing the Channel Master name are very common.

When received, the dial indicated approximately "10" and was turned to approximately 1020 Kc/s. The tuning range of the receiver is approximately 530 Kc/s to 1660 Kc/s, which covers the regular broadcast band. The receiver was operational when received.

The Q32 radio bears scratches on one end interpreted to read "00416."

The Q33 plastic "BUFFERIN" bottle is a 60-tablet size and contained 10 whole tablets and 2 partial tablets, all bearing the letter "B."

Specimen Q34 is a man's elastic belt bearing Greek or Roman heads on the buckle. The belt is 3/4" wide and 31" long, unstretched. The waist measurement of the wearer could not be determined in view of the type of belt.

Specimen Q35 is a partial tube of "BRYLCREEM" hair dressing, 3 ounce size.

Specimen Q36 is a bottle of "ONE A DAY" vitamins, 25-tablet size. There were 21 tablets in the bottle.

Specimen Q37 is a small hotel-size bar of "Cashmere Bouquet" soap.

Specimen Q38 is a clear plastic hairbrush with white synthetic bristles. "U.S.A." has been molded to the underside of the handle.

The Q39 bar of "dial" soap is a 4 7/8 ounce size and has the price "2/45¢" stamped on one end in blue ink.

The Q40 tube of "Head & Shoulders" shampoo is a 2.7 ounce size. It bears a price label with "LIGGETT-REXALL 1678 1.10" on the side.

The Q41 can of "KIWI" brown boot polish is a 1 1/8 ounce size. Some of the polish has been used.

A price tag on the Q42 can of "PALMOLIVE RAPID-SHAVE" menthol shaving cream bears "LIGGETT-REXALL 3478 .79."

Nothing of significance was noted about the Q43, Q44 or Q63 buttons; however, they are suitable for comparison with other buttons present on suspect garments.

Specimen Q45 is a used red-handled "Pepsodent" brand toothbrush. "U.S.A. M K5" is present on the underside of Q45.

The Q46 razor is a "Gillette" make and has no blade in it.

A price tag is on the Q47 3.75 ounce bottle of "Mennen afta" after shave and skin conditioner lotion bearing "\$1.00 PLS TAX." "202x" is printed in blue ink on the bottom of Q47.

Specimen Q48 is a small bar of "Cameo" soap manufactured by the Brunswick Soap Company, Brooklyn, New York.

Specimen Q49 is a small bar of "Cashmere Bouquet" soap, a product of Colgate-Palmolive Company, New York. A shield with "Member Friendship Inns" has been printed on the wrapper.

The Q50 and Q51 bobby pins are light brown colored, common pins.

Specimens Q52 and Q53 are full cans of Schlitz beer. "MISSISSIPPI TAX PAID 4 CENTS" has been printed in black on the bottom of each can. "03" has been stamped into the
158"

metal in the bottom of each can. Both cans are alike. These cans were found attached to the Q54 carrying device in the Q55 paper bag.

Nothing of apparent significance was noted about the 4" x 6" brown paper Q56 bag.

The Q57 key fits the lock on the Q15 zipper bag and probably belongs to this bag.

Specimen Q58 is a common, round, used toothpick.

The metal split ring, Q59, has overlapping ends. It appears to be the type of ring that new keys are attached to.

Nothing of significance was noted about the Q60 and Q61 coat hangers.

Specimen Q62 is a two-link portion of an "ADJUST-O" silver-colored watchband. The links may be compared with the watchband should same be recovered.

SOIL EXAMINATION

Fine smears and deposits of brown silty soil having the appearance of being deposited while wet were found on Q13. The soil in these smears and deposits is suitable for comparison purposes. The specific origin of the soil cannot be determined by a Laboratory examination.

DOCUMENT EXAMINATION

Specimens Q18, Q19, Q20, Q23, Q25, Q55 and Q56 were examined for writings and pertinent indented impressions, but nothing of significance was noted.

The Q55 bag is imprinted "HOMESTEAD" "STUBBY." Information available in the Laboratory shows that the "HOMESTEAD" brand name is registered to the Graham Paper Company, 1014 Spruce Street, St. Louis, Missouri 63102, while "STUBBY" refers to the type of bag.

Examination requested: **Firearms - Microscopic - Engineering -
Spectrographic - Fingerprint - Document - Miscellaneous**

Remarks:

The enclosed report confirms and supplements the teletype to the Memphis Office on April 5, 1968.

In the absence of a serial number in Q32, and because of the wide distribution of Channel Master products, it is considered highly unlikely that any vendor would be able to identify a particular unit as having been sold through his establishment.

The Memphis Office is being separately advised concerning the results of the fingerprint examination.

All of the submitted evidence is being temporarily retained in the Laboratory.

Heiter *OK*

Specimens received from Newark, 4/13/68

- ✓ Q134 Enrollment Form of the Locksmithing Institute, Little Falls, N. J., dated 7/31/67, in the name "Eric S. Galt"
- ✓ Q135 "Confidential Information" form of the Locksmithing Institute, bearing the signature "Eric S. Galt"

Result of examination:

The "Eric S. Galt" signatures on Q128, Q130, Q131, Q132 and Q135 were prepared by the writer of the signatures in this name appearing on items previously submitted in this case.

The typewritten impressions appearing on Q127, Q128, Q130, Q131, Q132 and Q135 were found to be the same style of type but the lack of identifying defects precluded a determination as to whether the same typewriter prepared all of these items; however, no significant differences were noted between the impressions appearing on these items. The style of type appearing on these specimens conforms to a standard for Royal pica style of type spaced ten letters to the inch. This style of type also appears on a typewriter sold under the Singer name.

OK It was determined that the hand printing appearing on the Q133 order blank and the Q134 enrollment form was prepared by the same individual. No questioned hand printing appears on the other items received.

Indented impressions were noted on the reverse side of the Q128 letter. The names "Ray," "Galt" and "Rily" and numerals "ET3623" were some of the notations interpreted on this item. A photograph of the indented writing is enclosed for the information of Los Angeles.

The submitted evidence has been retained.

MURKIN

Re Los Angeles airtels dated 4/16/68, submitting nine money orders, Q216 through Q224; a sheet of paper, Q225; and a Post Office form, Q226.

Twelve latent fingerprints and one latent palm print were developed on the money orders. One latent fingerprint was developed on the sheet of paper, Q225. These latent prints were compared with other latent prints previously reported in this case, but no identification was effected. No latents developed on Q226.

Unless advised to the contrary, the submitted items will be retained temporarily in the Laboratory.

Results of laboratory examination separate.
