**Q173 Change of Address Order, bearing signature
"Eric S. Galt" (Card indicates change is temporary
until 4/25/68)**

Result of examination:

It was concluded that the "Eric S. Galt" signature on Q173 was prepared by the writer of the signature in this name appearing on other specimens previously submitted in this matter.

The typewriting appearing on Q173 is the same style as that appearing on other items, but the lack of identifying defects precluded a determination as to whether the same typewriter was employed in preparing this item and other specimens believed to have emanated from Eric S. Galt.

Specimen Q173 has been retained. Photographs were made.

Re: MURKIN
CR

Date: April 19, 1968
FBI File No. 44-38861
Lab. No. D-560624 JK

Specimens received 4/12/68

ITEMS FROM 1966 FORD MUSTANG:

- Q118 A piece of Kleenex box bearing letters "At pool" on one side and names "Ginger Day and Anita Katzwinkel, 1535 Serrano, Apt. 6," on other side
- Q119 One air release shutter in original package
- Q120 Sunglasses with case
- Q121 Two pieces of cardboard from trunk
- Q122 Scraps of paper from glove compartment
- Q123 Scraps of paper from under rear seat

ALSO SUBMITTED: Four lifts of latent impressions found on
auto Rearview mirror
1967 Alabama license plate 1A 88354
1968 Alabama license plate 138993

Result of examination:

It was concluded that the writings appearing on Q118 were not prepared by the writer of the other material attributable to the unknown subject also known as Eric S. Galt. While the limited nature of the "Harvey Lowmyer" signature on Q72 and the lack of comparable letters for comparison precluded an adequate examination, differences were noted between the writings on Q118 and the questioned "Lowmyer" signature.

Among the miscellaneous items in Q122 and Q123 were two tickets stapled together, one red and one green. The top red ticket bears the numbers "4" over "4591" which appear on each half of this ticket. The green ticket is printed "FLAG-TAGS," "STRY-LENKOFF Co.," "Louisville, Ky." "FT. 35," "printed in USA."

44-1987-Sub H-70

Also included in the above were twenty "S&H" green stamps, each of which had "14LK" printed at the top and "627" printed at the bottom.

These items, Q118 through Q123, were examined for indented impressions and other markings but other than that set out above, nothing of significance was noted.

The evidence has been retained.

Q225 Sheet of paper bearing typewritten message beginning "Dear Sir, Inclosed is..." signed "Eric S. Galt"

Q225 Post Office Department Application For Delivery of Mail Through Agent, Form 1583, signed "Eric S. Galt"

Result of examination:

It was concluded that the "Eric S. Galt" and the "Eric Galt" signatures on Q216 through Q221, Q223 and Q224 were prepared by the writer of the signatures in this name appearing on specimens previously received. The signatures on Q222 are too distorted for identification with these previous signatures but similarities were noted.

Because of the lack of comparable writings and variations, it could not be determined whether the other writings appearing on Q216 through Q224 were prepared by the writer of the available writings which are attributable to Galt, however, similarities were noted between the payee names on money orders and the "Galt" writings.

Because of the lack of comparable letters and letter combinations necessary for an adequate comparison, it could not be determined whether the "Harvey Lowmyer" signature on the Q72 gun invoice was prepared by the writer of the money orders, Q216 through Q224, and other writings attributed to Galt.

It was concluded that the questioned signatures on Q225 and Q226 were prepared by the writer of the "Galt" signatures on other specimens previously submitted.

The typewritten impressions appearing on Q225 are the same style as those appearing on other items believed emanating from Galt, but the lack of identifying defects precludes a determination that the same typewriter was used to prepared all of these items.

The submitted specimens are temporarily retained. Photographs were made.

EXAMINATION REQUESTED BY: Atlanta

SPECIMENS: Portable TV and numerous items from storage room in Rooming House at 113 Fourteenth Street, Atlanta, Georgia, Q174 through Q200, and Q203

Six latent fingerprints and one latent impression, which may be a fingerprint, impression of lower joint of a finger, or partial palm print, were developed on map of Mexico, Q194. No other latent impressions of value found or developed.

One of the latent fingerprints on the map is identical with the latent fingerprint previously reported on the rifle, Q2, and with the latent fingerprint previously reported on binoculars, Q14. Other latent prints on the map compared with latent prints previously reported in this case, but no identification effected.

Result of examination:

It was concluded that the handwriting and hand printing on items received in this case which have been attributed to Eric S. Galt, were not prepared by Dr. ALVIN E. FRENCH, K19 and K31. Differences were noted between the "Harvey Lowmyer" signature on Q72 and the known handwriting of FRENCH, but because of the limited nature of the questioned signature and the lack of comparable known material a definite opinion could not be reached.

Specimens K19 and K31 have been retained. Photographs were made.

Results of examination:

The previously submitted bedspread, specimen Q13, is composed of brown cotton fibers, green cotton fibers and green rayon fibers. Brown cotton fibers, green cotton fibers and green rayon fibers that could have come from the Q13 bedspread were found on Q95, Q97 through Q104 and Q106 and in the Q117 sweepings. No such fibers were found on Q89 through Q92 or in the Q114 through Q116 sweepings.

Caucasian head hairs like the hairs previously found on the Q13 bedspread, in the Q15 zipper bag, on the Q26 towel, on the Q29 and Q30 socks and on the Q38 hairbrush were found on Q95, Q97, Q99, Q100 and Q103. These hairs could have come from the same person. It is pointed out that hairs do not possess enough individual microscopic characteristics to be positively identified as originating from a particular person. Caucasian head hairs were also found in the Q114 through Q117 vacuum sweepings. Some of these hairs are like the Q13, Q15, Q26, Q29, Q30 and Q38 hairs and could have come from the same person. Some of the hairs from Q114 through Q117 are different from the Q13, Q15, Q26, Q29, Q30 and Q38 hairs and did not come from the same person. No hairs were found on Q89 through Q92, Q98, Q101, Q102, Q104 or Q106.

The Q89 through Q91 floor mats are composed of translucent red plastic. No brand names are indicated on the mats. The letters "HIS" are hand printed on the back of each mat, apparently with a felt tip marker. The significance of the letters is not known.

Specimen Q92 is a black and gray plaid rubber mat. No marks were found on Q92.

Specimens Q94, Q108 and Q109 are standard items furnished with Mustangs.

Specimen Q95 is a dark blue short-sleeved sweat shirt of medium size. No labels or laundry marks were found on Q95.

Specimen Q96 is a black and white rubber sandal for the left foot. A label on the bottom bears the following: "MEN'S - M SHOE SIZE 7-8 $\frac{1}{2}$ JAPAN"

Specimen Q97 is a twin-bed size, fitted, white bed sheet. Specimen Q99 is a white pillowcase. A white laundry tape is present on Q97 and Q99. The following is printed in black on each tape: "2-OR-3" It was concluded that the marks on these tapes did not originate from the machine which prepared the laundry tapes on the Q69 shorts and the Q70 T shirt.

Specimen Q98 is a black and white shirt jacket. The following is present on the label of Q98:

" M RN19788 65% DACRON 35% COTTON
15-15 $\frac{1}{2}$ MONTICELLO SHIRT JACKET TAPERED"

Specimen Q100 is a twin-bed size, fitted, white bed sheet. The sheet is in two pieces. The two pieces are stitched together with yellow thread and white thread. Inquiry at a department store in Washington, D. C., developed the following information concerning Q100: It is a #3 grade irregular seamed sheet. Most such sheets even if manufactured in the United States are sold in other countries. If sold in this country, they are sold in low class "illegitimate stores." Such sheets do not bear the manufacturer's name.

Specimen Q101 is a black short-sleeved shirt. The following is present on the label of Q101:

"ARTURO ROSETTI CUSTOM TAILORED -L- 100% COTTON
MADE IN U.S.A. RN15722"

Specimen Q102 is a pair of olive green walking shorts. The following is present on the label of Q102:

"HONG KONG DIPLOMAT CUSTOM TAILORED 65% POLYESTER FIBRE
35% SUPER FINE COTTON WAIST 34"

Specimen Q103 is a light pink, looped pile cotton rug that measures 24" by 56 $\frac{1}{2}$ ". No labels were found on Q103.

Specimen Q104 is a feather pillow that measures about 19" by 24". The pillow has a specification label. The back of the label is stamped "9 1967."

Specimen Q105 is a container for a Polaroid camera, possibly a model 230. No label was found on Q105.

Specimen Q106 is a pair of men's stretch socks with no label.

Other than the laundry tapes on Q97 and Q99, no visible laundry marks were found on any of the cloth items listed above. No invisible laundry marks were found on any of these items.

No buttons are missing from any of the garments listed above.

The Q107 hunting knife has a blade that measures 3/9/16" in length. The blade is rusty. The words "GESCO JAPAN" are imprinted on one side of the blade and the number "45" is imprinted on the other side. The word "GESCO" is stamped on the sheath.

Specimen Q110 is a flat-tipped Stanley brand screwdriver.

Specimen Q111 is an "ANCO" brand windshield wiper blade. Part of the rubber has been torn off.

Specimen Q112 is a "Personna" double-edge razor blade. No hairs were found on Q112.

The K30 and K44 through K59 soils from Memphis are different from the soil found on the previously submitted Q13 bedspread in physical characteristics and composition. Therefore, the soil from the bedspread did not come from the sources of K30 and K44 through K59.

No soil similar to the soil from the bedspread was found in Q113, Q143 through Q158, Q160 and Q161 or on the Q163 tire and wheel. None of these soils from the car originated from the source of the soil on the bedspread.

Although nothing was noted which would aid in the determination of the original sources of specimens Q113, Q143 through Q146, Q148, Q149, Q151, Q152, Q154 and the soil from Q163, they are suitable for comparison purposes. Specimens Q147, Q150, Q153, Q155

through Q158, Q160 and Q161 are either too limited in amount or too mixed with miscellaneous debris to be of value for significant comparisons other than for elimination purposes.

The soils from the car were different from K30 and K44 through K59 in physical characteristics and composition and, therefore, did not come from the sources of K30 and K44 through K59.

No soil of value for significant comparison was found on Q89 through Q106 or in the vacuum sweepings, specimens Q114 through Q117. The mineral debris in Q114 through Q117 consists of typical car floor debris, a mixture of miscellaneous materials from numerous sources. No mineral debris of apparent significance was found in Q114 through Q117.

The scrapings from under the glove compartment, Q159, do not contain blood.

The Q162 liquid was identified as water. No traces of any alcohols such as used in windshield wash were identified in this specimen.

Specimens received 4/16/68, from FBI, Newark

Q215 White envelope postmarked "Montreal, P.Q., VII, 1967," bearing return address "Eric S. Galt 2589 - Rue Notre Dame Est. Montreal, Canada, Quebec" and hand printed address "Locksmithing Institute Little Falls, New Jersey, U. S. A. 07424"

Specimen received 4/15/68, from FBI, Chicago

K35 Nine sheets of paper bearing known handwriting and hand printing of GINGER NANCE

Result of examination:

It was concluded that the hand printing appearing on the Q215 envelope was prepared by the individual responsible for the preparation of the hand printing on the Locksmithing Institute Enrollment Form and the Superior Bulk Film Company order blank which were previously submitted in this matter.

No significant indented impressions were noted on this envelope.

Except for the word "broult" it was concluded that the questioned writings on Q118 (torn "Kleenex box") were prepared by GINGER NANCE, K35. Similarities were also noted between the word "broult" and the known writings of NANCE but the lack of known writing precluded a definite opinion from being reached.

The submitted items have been retained. Photographs were made.

Results of examination:

Numerous hairs were found on the Q164 and Q165 bed sheets. The hairs include brown to black head, pubic and limb hairs of Caucasian origin. Also, one dark brown head hair of Negroid origin was found on Q165. The range of characteristics exhibited by the Caucasian hairs suggests that they are from more than one person. Some of the hairs are deteriorated and dirty, similar to hairs from floor debris.

A few of the Caucasian head hairs from Q164 and Q165 are similar in some microscopic characteristics to hairs previously found on items from the Mustang and Memphis scene but do not match in all microscopic characteristics. The possibility that these hairs originated from the same source could not be eliminated.

No fibers were found on Q164 or Q165 that could be associated with the QB bedspread or with other cloth items previously submitted from the Memphis scene or from the Mustang.

The Q171 keyhole saw is old. The brand or source of Q171 could not be determined.

Some similarities were noted between the handwritten word "florida" and other variations of this word appearing on Q167 when compared with available writings attributable to Eric S. Galt. The limited nature of the writings on Q167 precluded a more definite opinion.

The hand printing on Q170 (Jimmy Owen) is upper- and lower-case, while previous hand printing on items received has been upper-case letters. For this reason, it could not be determined whether this name was prepared by Galt; however, differences were noted.

The printed words "P^ETTED" and either "PUNCH" or "BUNCH" were faintly inscribed on the newspaper designated Q169. Any significance of this is not known.

No previous road maps similar to Q166 have been received.

Specimens Q166 through Q170 and Q172 were all examined for indented impressions and other markings, but except for the above, nothing of significance was noted.
