It is suggested in contacts with above establishments the actual operators of Thermo-Seal machines rather than supervisory personnel be contacted. It is further suggested, on the basis of consultation with Textile Marking Machine Co. personnel that the letter "O" in instant tape may have been used rather than a dash for first character. If the code is recognizable by insertion of a dash instead of letter "O", or if the code is recognizable as it appears on instant tape, obtain sample of tape and immediately submit to FBI Laboratory for examination.

For the information of San Juan, the following is furnished:

Search of premises believed occupied by UNSUB who assassinated Dr. MARTIN LUTHER KING on 4/4/68, disclosed suitcase in which was located tee-shirt and undershorts bearing laundry mark on red tape with black lettering believed to be Thermo-Seal type, manufactured by Textile Marking Machine Co., Inc., Syracuse, N.Y. The tape is $\frac{1}{4}$ " wide and $1\frac{1}{16}$ " long and bears letters and numbers O2B-6.

Experts at Textile Marking Machine Company advise type on this machine is unusual in that the first two characters are 15 point type and the last three characters are eighteen point type, with the middle character, the letter B, probably being narrow rather than regular type. The usual machine carries 15 point type for the first three characters and 18 point type for the last two characters.

Textile Marking Machine experts also stated this machine is defective in that it is producing a tape $1\frac{1}{16}$ " long instead of $1\frac{1}{8}$ " long and is not projecting the tape far enough resulting in cutting off a portion of the first letter. The code used in the Northeast part of the U. S. is as follows:

The first letter O stands for lot number; the first number 2 indicates the day of the week, two being Tuesday; the second letter indicates the first letter of the store name, this is the letter B; the last number is the bundle number, this is 6. Color coding of the tag may designate various things such as a different month or the identity of a store in a chain. Experts also state the use of this system on laundry items is unusual in that the system is normally used on garments being dry cleaned.

The Bureau has instructed that all textile machines using this type tape be located and machines using this code be identified.

ALL OFFICES PLEASE NOTE: Bureau teletype to All Continental Offices, 4/9/68, stated that all laundries should be contacted in an effort to identify the tape on the shorts and tee-shirt believed to have been abandoned by UNSUB. The Textile Marking Machine Co. has advised that the above are the only machines known by that company to be in the above listed states which would be capable of producing the laundry mark on the garments. This company advised that the tapes on the garments are their tapes exclusively and that there is no other marking machines in the world which could have produced the tapes.

Memorandum

TO : SAC(105-1951) C.

DATE: 4/12/68

FROM : SA THOMAS F. LEWIS

SUBJECT: FREDERICK HAROLD POLZIN, Jr.
BM

On 4/10/68 CHIEF EARL SHIPMAN, Parkesburg, Pa., advised the subject continues to reside on Mc Call's Ferry Rd., Parkesburg, Pa. with his mother. He said subject is a carpenter and has been working most recently for CHARLES DAVIS, building contractor, doing work on new home building in Parkesburg.

Regarding the whereabouts of the subject during the last week of March 1968 and the first week of April 1968, the Chief mentioned that to his knowledge the subject was around Parkesburg during that period and working for DAVIS. The Chief stated he sees the subject nearly every day and although he could not state for certainty that he has seen the subject each day during the pertinent period he feels that if the subject had left town for several days he would have recalled this at this time.

On 4/10/68 MR. CHARLES DAVIS, Building Contractor, Parkesburg, Pa., contacted under the pretext of a fugitive type investigation, advised that subject has been working for him off and on for the past several years as a carpenter. He stated based on his payroll records and his personal recollection the subject was working for him each day since at least the middle of March 1968.

No further action is being taken in this matter at this time and no recommendation is being made at this time to include the subject on the rabble rouser index since it would appear his activities do not warrant it.
