Dear Sir:-

Please find enclosed, a picture taken from page 2A, Herald-Republic, dated April 12-

Now, I understand you are looking for a man named Galt!!!!
Could he be as real as the world war II fellow whose name appeared on every wall, fence & building from Africa to England, via Europe????

E.F. Joy.

...the House two
...Johnson signed
...to Congress calling
...a federal open housing law.

"We are also outraged," Johnson said, "at the looting and burning that befoils our democracy."

"We must put a stop to both."

...and has some medical money," he said. Further, he noted, the Office of Economic Opportunity and Housing and Urban Development each has considerable sums for use in the field of public health.

He described the current study of health needs as a long range program which is being made on one hand by the medi-

...and may be completed by that time.

In another area of discussion, the health district board talked with representatives of nurses, clerks and sanitarians from its staff. The nurses are seeking an agreement through the Washington State Nurses Association for a wage and working conditions contract.

Dr. Leland Harris, public health officer, had prepared a

(Turn to Page 2, Column 4)

attack in waves

SAIGON (AP) — The Viet Cong hurled human wave attacks early Friday against a U.S. 25th Infantry Division unit about 50 miles northwest of Saigon but were thrown back by a ground, air and artillery counterattack.

U.S. spokesmen said 14 Americans were killed and a sweep of the battlefield turned up 120 enemy dead. It was the first major action reported in Operation Toan Thang-complete victory-since it opened Monday.

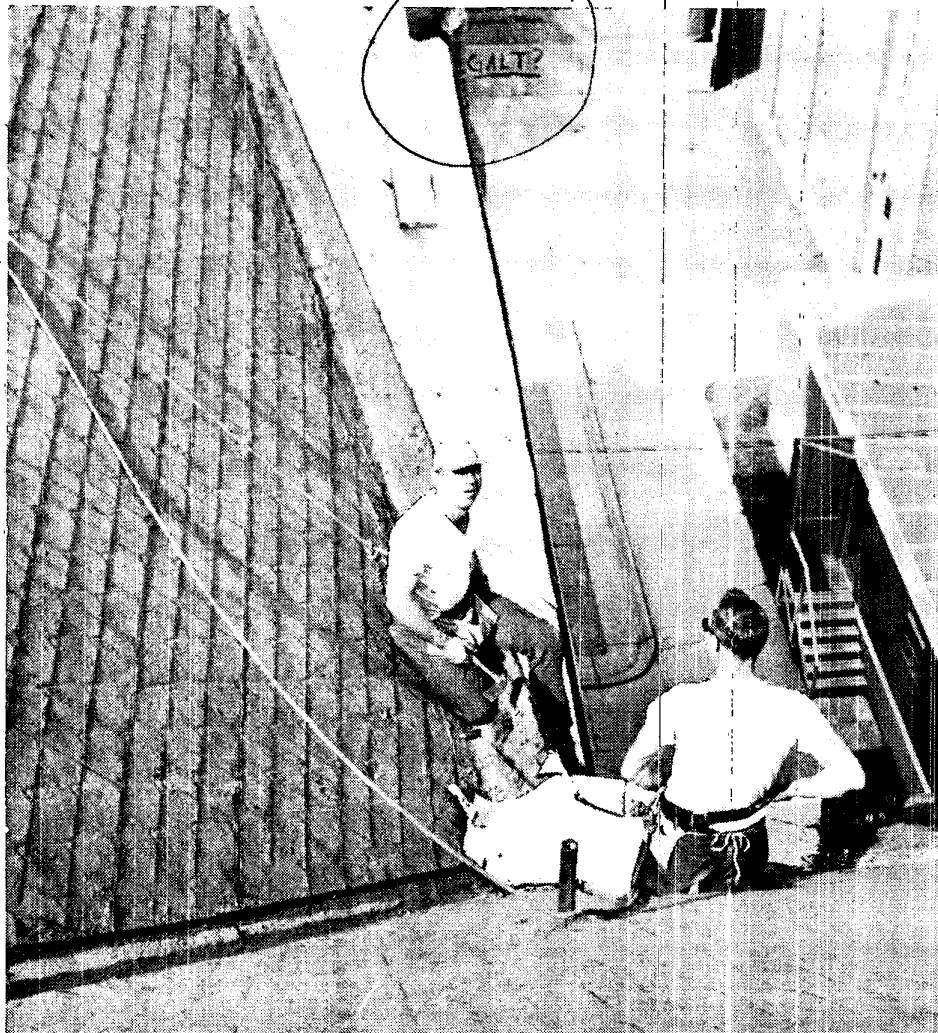

Military spokesman said the enemy approached to within hand grenade range in the fighting near the Cambodian border. The flareup broke a lull in ground fighting that had accompanied peace moves between the United States and North Vietnam.

The predawn attack was repulsed after about five hours of heavy fighting, the spokesmen said. They said the assault was launched against night positions of the division's 3rd brigade.

The sweep of 100,000 allied soldiers in 11 provinces around Saigon was pressed against little opposition for the fourth straight day. The allies are looking for 18,000-20,000 enemy troops believed to be in the 3rd Corps area.

A U.S. spokesman summed up the 3rd Corps situation of the enemy this way: "It appears they aren't ready to fight. With their supplies dependent on hand-carrying things, bicycles and sampans, they've probably used what supplies they had stockpiled. They lost over 47,000 men in the Tet offensive. After losses like that, you don't go into action in quite some time."

"They apparently have fallen back to regroup, to get replacements. Now is the time to go get them, now that they are hurting. We've got to maintain the pressure on them."

BARGE HALL ROOFED — Workmen are making preparations for a \$15,000 shingle roofing of 75-year-old Barge Hall Administration Building at Central Washington State College. Earl Smith, left,

and Monte Moore of Valley Roofing Company, Yakima, are patching the old metal roof. The building, once the Washington State Normal School, has 17,200 square feet of roof and is about 6 stories tall.

BRUSSELS (AP) — Belgian security police are investigating a case of spying for an East European Communist state and have questioned a German official on the staff of the Common Market headquarters here, a Belgian Foreign Ministry spokesman said Thursday. The official was not identified.

The spokesman said the German was questioned by Belgian police two or three weeks ago but was released the next morning on the intervention of Jean Rey, president of the Common Market commission.

Cache of weapons found

KUCHING, Malaysia (AP) — Police in the Malaysian Borneo state of Sarawak disclosed Thursday that they had found a cache of weapons, explosive and ammunition which they said were to have been used by Communist terrorists.

A police spokesman did not say when the weapons were uncovered, but he said the news was withheld because of security operations in the area about 20 miles south east of Kuching.

Navy to pay for damages

LONDON (AP) — The U.S. Navy said Thursday it is prepared to compensate the French trawler Lorraine-Bretagne whose drag gear was fouled by the nuclear submarine Robert E. Lee in the Irish sea.

"If there is any question of damage we will pay," said a spokesman. "We are waiting for a claim to come in."

The Navy said the submarine was not damaged in the incident April 9. Only the trawler's gear suffered, it said.

U.S. wheat for Arabs?

NEW DELHI (AP) — India has asked the United States to let it sell Egypt 27,400 tons of American aid-to-India wheat held up in the Suez Canal since the Arab-Israeli war last June, Food Minister A.P. Shinde told Parliament today.

Shinde said Egypt has agreed to purchase the shipment, and there is no chance of getting the ship with it aboard out of the canal. No price has been fixed, he added.

Reds tighten control

MOSCOW (AP) — The Soviet Communist party, apparently made fearful by the liberalization move in Czechoslovakia, warned officials down the line they must "wage an offensive struggle against bourgeois ideology."

The party's central committee gave its approval after a two-day secret meeting to the crackdown on dissenters already launched by the party's leaders.

are and the economy to move ahead," he added. "For that reason I would propose to hold the line on taxes where they presently are and during my four year term call for a complete look at the state's tax structure. After that's done, then the people should decide."

Rosellini charged the administration of Gov. Dan Evans with unwarranted taxation, overspending and "broken promises."

"They promised to hold the line on taxes in 1964 then saw both the property and sales taxes go up in the ensuing two sessions of the legislature," Rosellini said.

"They advocated economy after charging us with extravagance and yet the people are now overtaxed and there is a tremendous waste in expenditures," the former Governor added. "The latter is illustrated by the fact that today the cost of state government is 80 per cent higher than during the last biennium of my administration. Compare that with a 10 per cent increase in population."

"The current administration has made constant efforts to pile one regressive tax on top of another in both of the last two sessions," Rosellini said. "The current surplus indicates there has been overtaxation."

Rosellini said the Washington Research Council, "very conservative in its estimates," foresees a \$72 million surplus at the end of the current biennium.

"I think it will exceed \$100 million on June 30, 1969," Rosellini said.

Insisting that the surplus was the result of unwarranted taxation, Rosellini added that "They insisted on taking two mills of the 40 mill limit from the county and collecting it at the state level, thereby doubling it," the former governor said. "They've already announced they will try to get two more the next time out."

taxes to get more

It was decided that the meeting would meet in executive session and work out final details of a contract which will be rewritten in agreement from. Paul Chandler spoke for the nurses and James Lockwood was there to represent the sanitarians.

Dr. Harris closed the meeting with a report on the migrant labor outlook for the summer.

He said that there appears to be a promise of enough funds from federal migrant money to furnish at least three nurses and one sanitarian for two to four months during the summer. "These people will be used at the labor camps to help with health problems," he said.
